

CBREX Success Story

Case Study: The New Playbook for Scaling US Pharmaceutical Manufacturing Talent

Solving the High-Volume Hiring Challenge in America's Pharma Manufacturing Hubs

The Strategic Challenge: The "Talent Deserts" Of US Pharma Manufacturing

For US pharmaceutical leaders, the persistent challenge is predictably and efficiently staffing manufacturing and quality control facilities outside major biotech hubs.

Sourcing Bottleneck

Large national firms lack focus, small local agencies lack sourcing horsepower for critical plant-level roles.

Production Impact

Unfilled roles bottleneck production capacity, quality assurance, and supply chain reliability.

"The question is how to build a reliable talent supply chain for these essential roles, delivering both quality and volume on demand."

Use Case in Action: Powering Three Leading US Pharma Manufacturers

Prominent US Pharma Companies 3(0)(0)-

Critical Roles Filled

Complex

Geographic Hiring (e.g., Baudette, MN; Fall River, MA;)

"Solving the high-volume hiring challenge for essential plant operations and quality control roles."
