

Dear students,

We are writing to share new conditions concerning the arrivals, departures and communication with Stephanie.

As you all know, the school collaborates with Canet to arrange your airport transfers and maintain your well-being while you stay here. How it has been handled up to now resulted in a tremendous workload for Canet and the School.

New Protocol

Arrivals and transfers.

Students arriving from America, South Africa, Australia and New Zealand , may come one day prior to the starting day.

Students arriving from within Europe should come on the day the retreat starts, not earlier.

The school will provide transfers from the airport on the arrival day only **between 10 am and 8 pm**. If your flight arrives before 10 am, you can either wait at the airport for the first transfer service or arrange your own transportation at your expense. Should your flight arrive after 8 pm you must arrange your own transportation.

Students arriving a day earlier should take care of their own transportation and arrive in Canet between 10am and 6pm. Please consider this when purchasing your flights.

Departures and transfers

Students are expected to leave the school no later than 2 pm on the departure day. There will be no lunch service.

Transfers are offered only on the departure day (the day after the module ends), between 6 am and 2 pm.

Students travelling long distances, depending on the module or the time of the flight are allowed to stay an extra day after the departure day. **You should clear this with Stephanie before buying your tickets.**

All students whose flights meet the conditions above wishing to have their transportation covered by the school must send Stephanie all their flight details (Flight number, arrival and departure times) 2 weeks before the arrival date. If students do not send their information by then, they must arrange their transportation to and from the school.

We are sorry for any inconvenience this may cause you.

Best regards,
ZRSOC.
