# INITIATION TO THE CHAKRAS

## Sixth Chakra

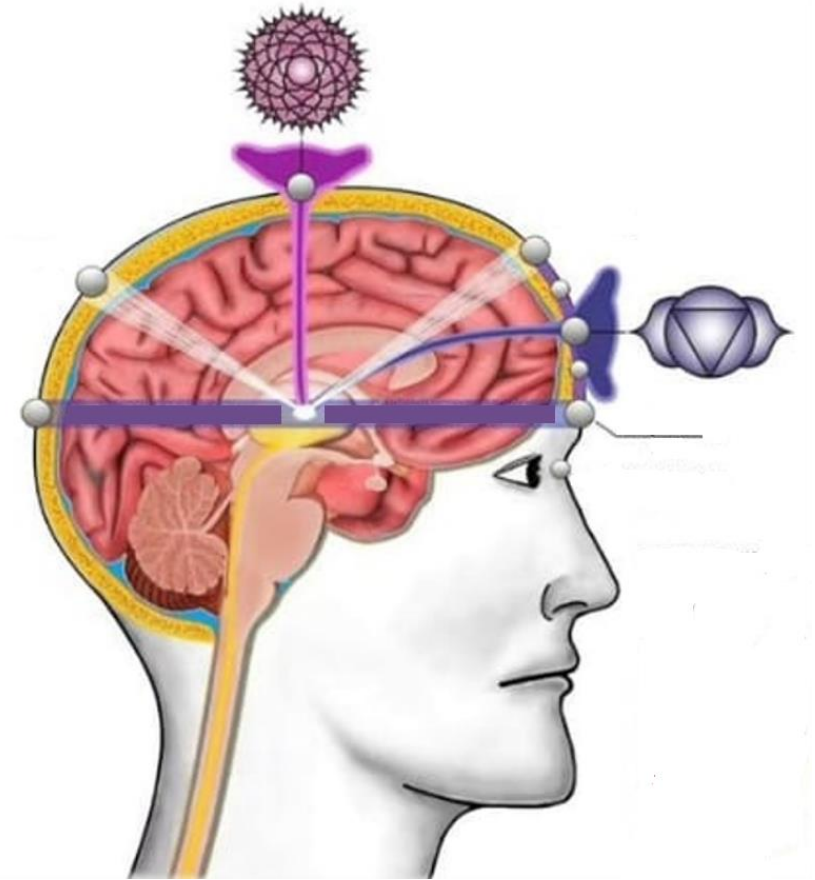

# Unconscious management of the Sixth Chakra

- Chaos of possibilities (overwhelming).
- Perception on multiple levels, without distinction or discernment.
- When the solar plexus is projected onto the third eye, you see what you want to see. Fantasies and illusions.
- Projection of ideas, embellished with future possibilities.
- The false medium who sees what the subject wants him to see (other's desires and thoughts).
- Strong and fast flow of energy. No control.
- Density (thought-forms).
- Directional and imposing (arrows).
- Linear and personal mental activity.

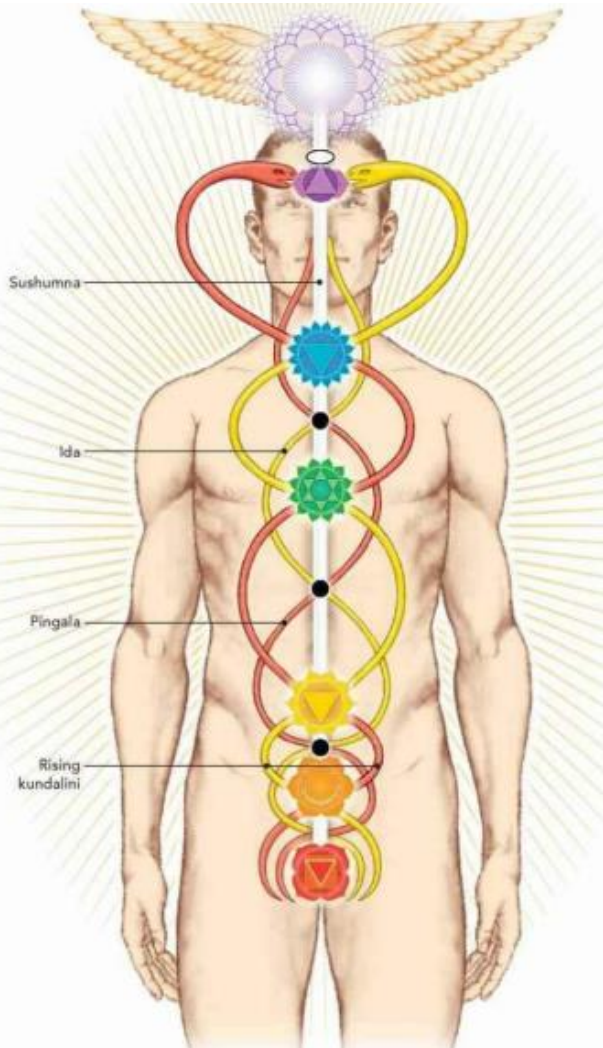

# What is the Sixth Chakra?

- **Discernment and intuition.**
- Refined levels of intelligence and concentration, higher perception, and balanced mental activity.
- The use of the **inner senses. Inner vision and clarity.**
- Dark blue/indigo representing the depth and dynamism of **Soul's intelligence** infused by the **Vision of the Spirit Self.**
- Element Air – a lighter-than-air form of light, connected to the **higher frequency of intuition.**
- Associated with the pineal and pituitary glands at the physical level.

# Sixth Chakra's integration

- The integration of **ida** and **pingala**. It envelops all the chakras.
- Elevation of the powers of the Solar Plexus: Higher use of the mind.
- It sees the Truth of the heart as a concrete possibility.
- Understanding the purpose of life and our role in it.
- Gateway to the Higher Dimensions: The seat of Spirit (11D)

# The second major initiation

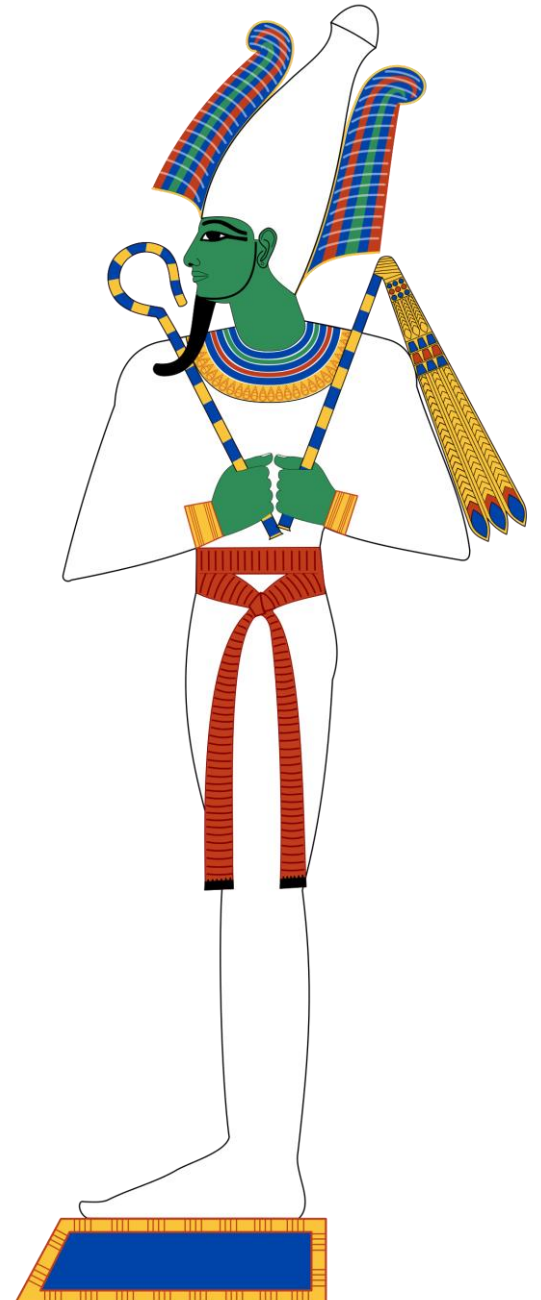

The OSIRIS mysteries

Known as the **God of the afterlife** and the inventor of Religion.  
**The guardian of the higher realms.**

He is responsible for the communication and transmission of the Higher Worlds and for bringing the Vision and education of the Light (Law of One) to the Earth and to the children of Light.

The Second Major Initiation:

Unveil the mysteries of the upper world, through the access to the Intuition and higher dimensions, the worlds of the Archangels and Elohim. Reality with capital "R".

# The Falcon and the God Horus

A royal bird with a clear, broad vision.

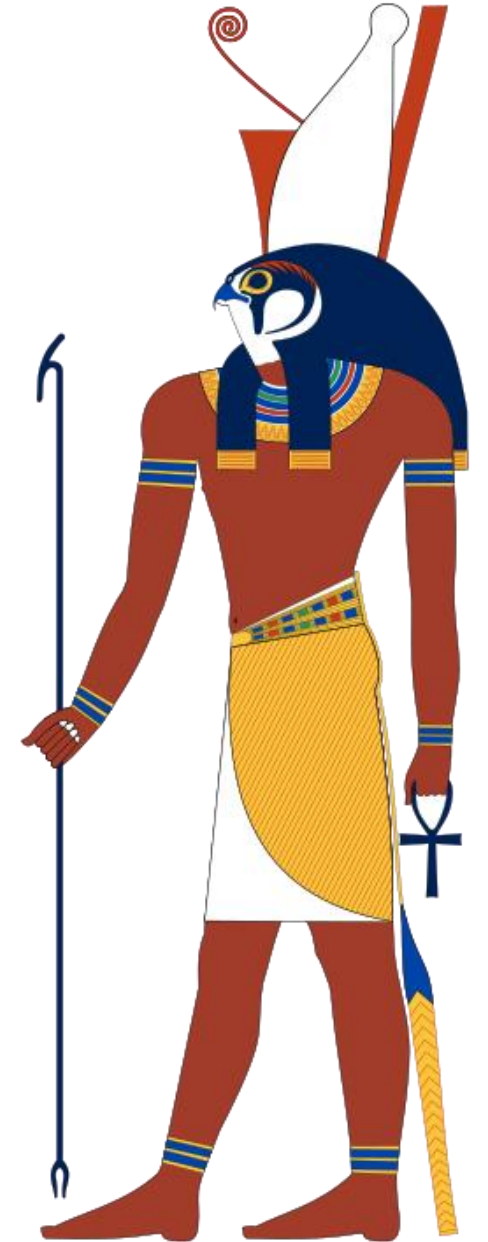

It represents flexibility and control of life's movements, the energy that promotes change – from automatic to conscious living.

The energy that leads to right thinking, intelligent responses, and emotional maturity.

HORUS is the son of ISIS and OSIRIS and heir of OSIRIS' teachings and the access to the higher worlds on Earth.

Known as the God of the Sky and represented many times by a human figure with a falcon's head.

It is a bridge between the higher worlds and humanity.

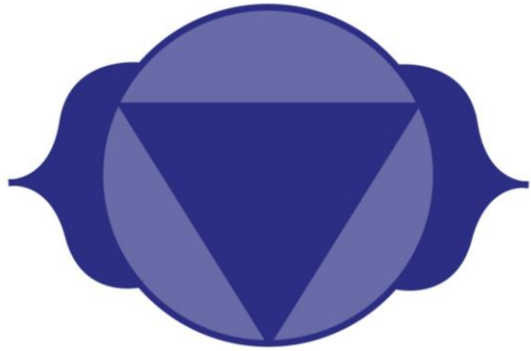

**LOOKING AT THE FUTURE**

# Questions

- How does your emotionality (attachments, desires, preferences, etc.) affect your vision of the future? How do you create stories for yourself and get caught up in it, believing in it?
- Are you able to DISCERN what is REAL in your life?
- Were you able to perceive the difference between using your faculty of creation/projection in connection with your Spirit/Soul and using it based on your personality?
