

Helical Model & The Human Experience

Traditional Thinking

The functioning of the **LOWER MIND**, based on the **LINEAR THINKING**, conceives limited models which doesn't consider the insights provided by the attunement with the Soul and the inner motion of Consciousness in resonance with the dynamics of the universe.

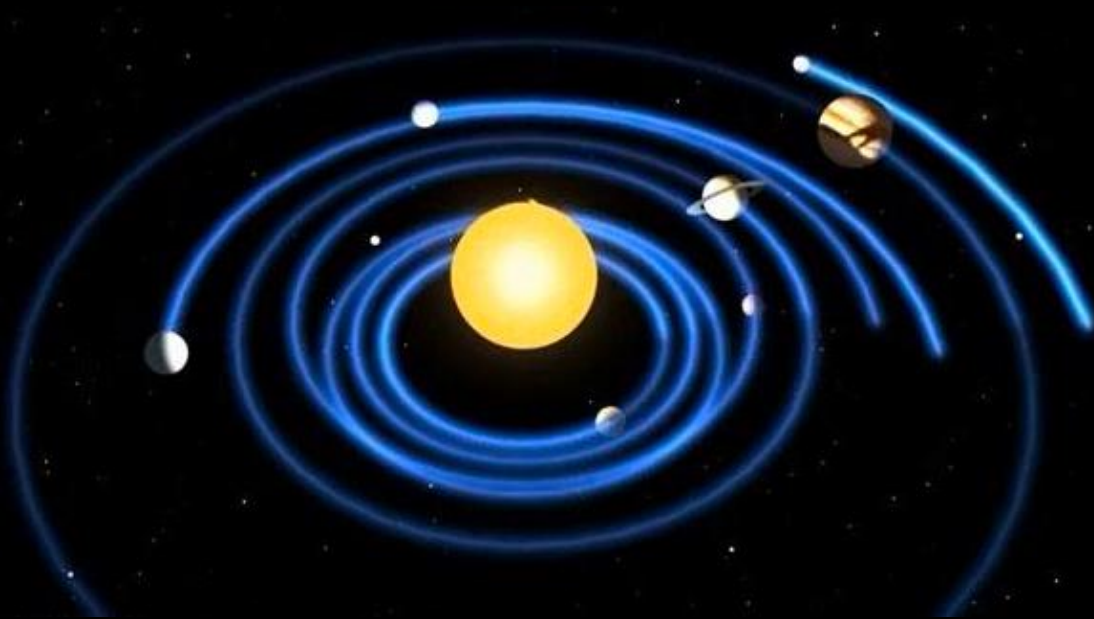

The Helical Model

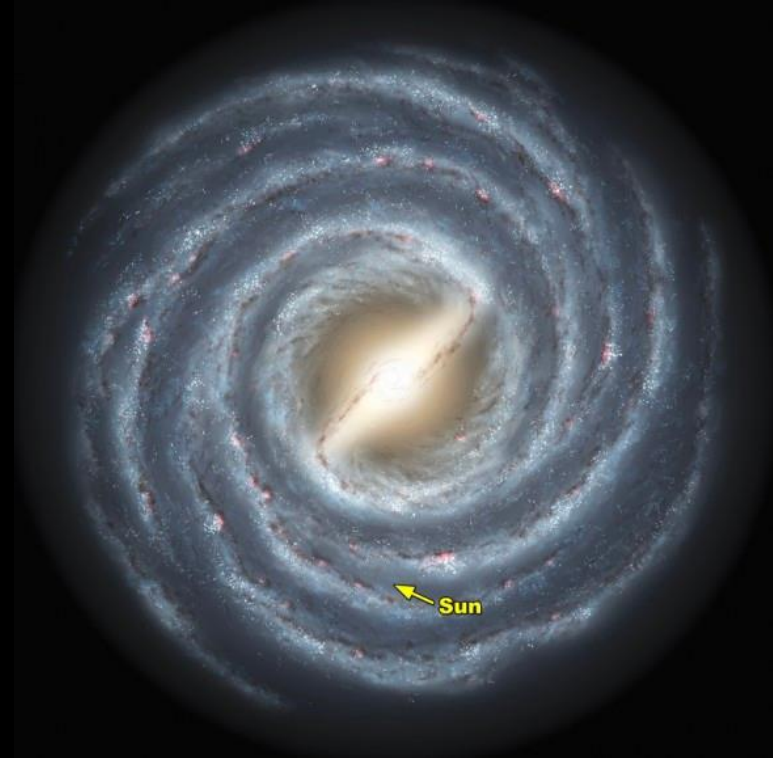

The **ever-expanding**
motion of **Consciousness**
that drives the
development of life in all
its aspects.

The Helical Model

As Above so Below | Macro ↔ Micro

Solar system

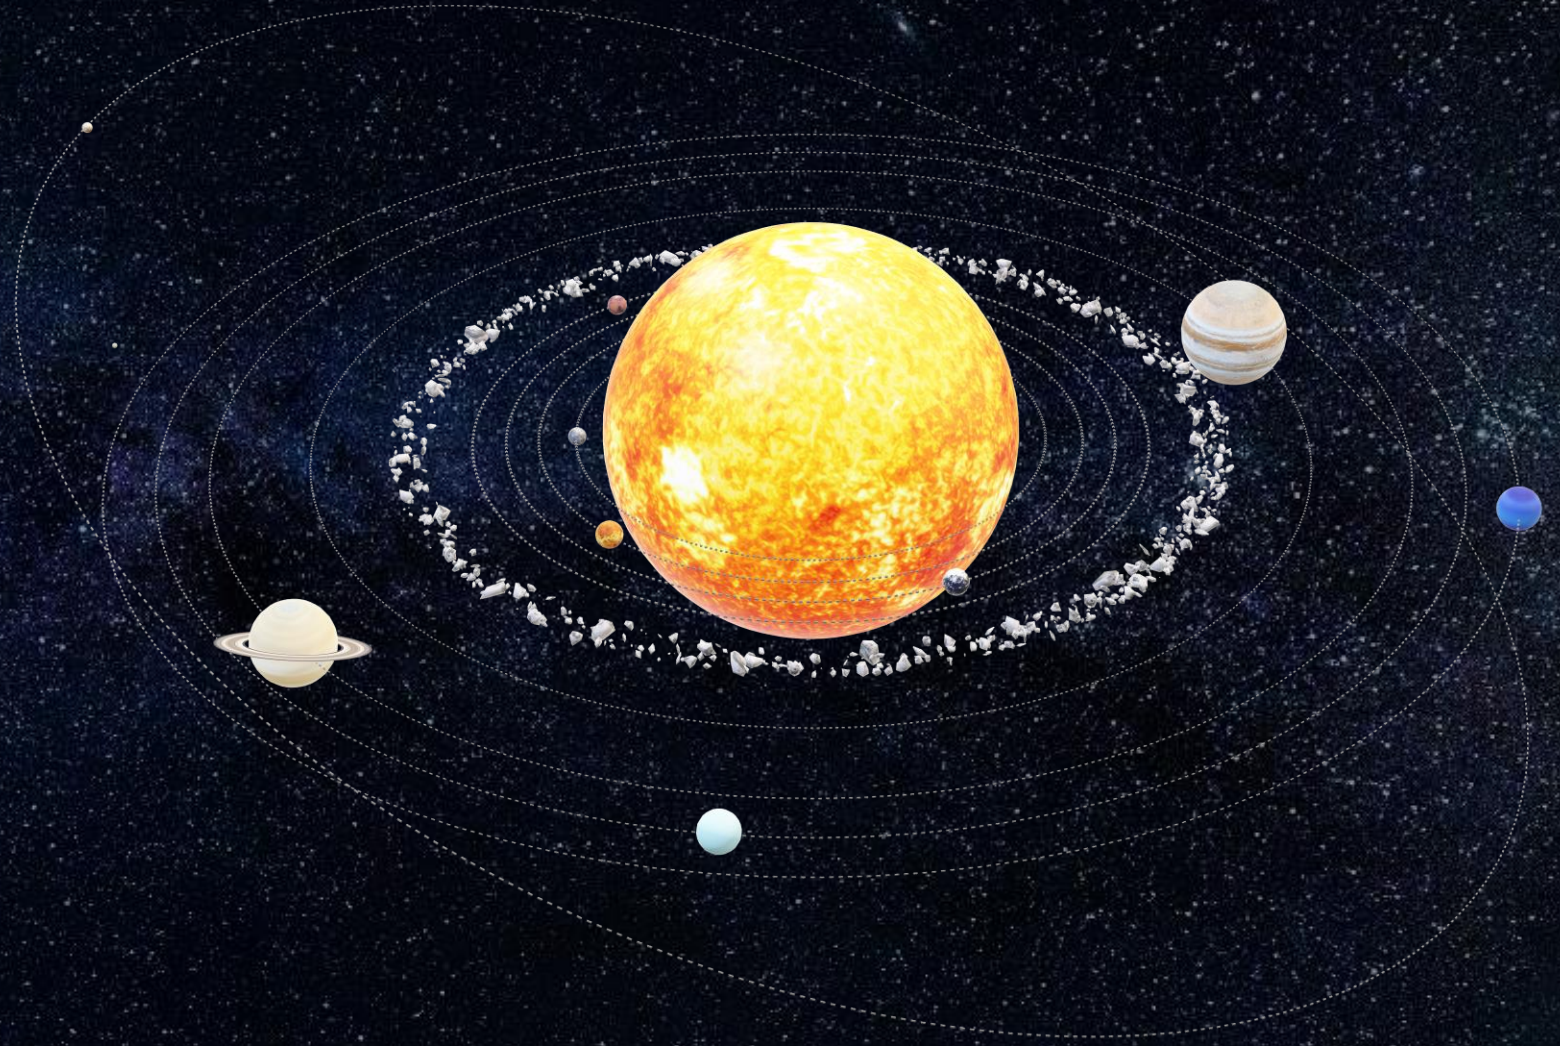

Milky way

The Helical Model

The discipline of vibration

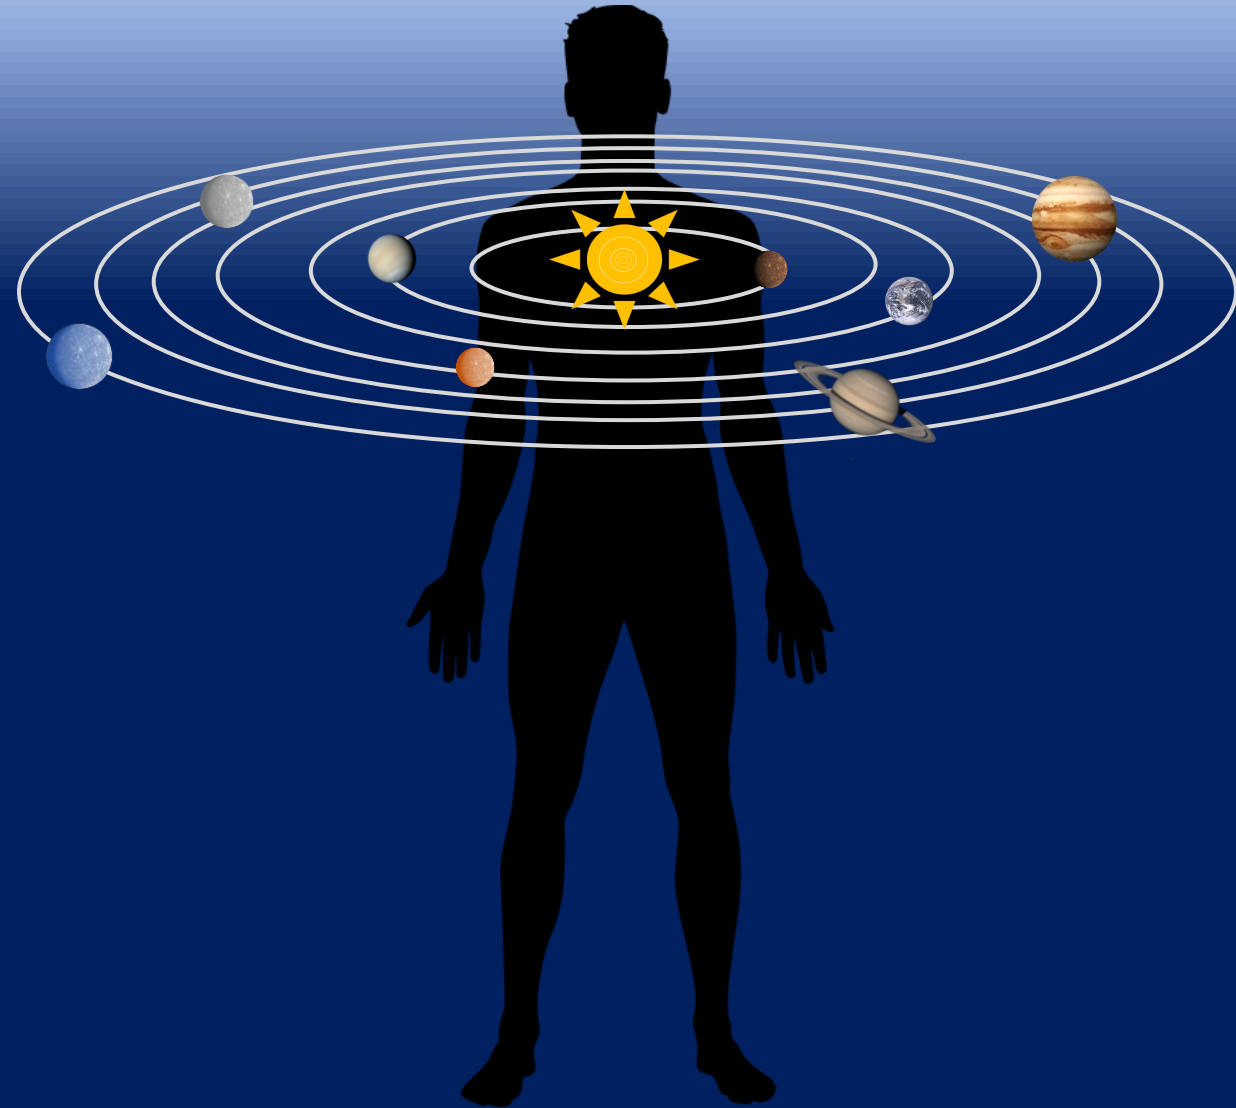

The SUN **attracts** particles of **creation-substance** forming PLANETS, which **attracts more** creation-substance forming SATELLITES.

The Helical Model and the Human Model

The dynamic of the Universe is identical to that of the human being. Planets revolve around the Sun, just as a human being “revolves” around Spirit Being.

A human being is also a galaxy within a galaxy.

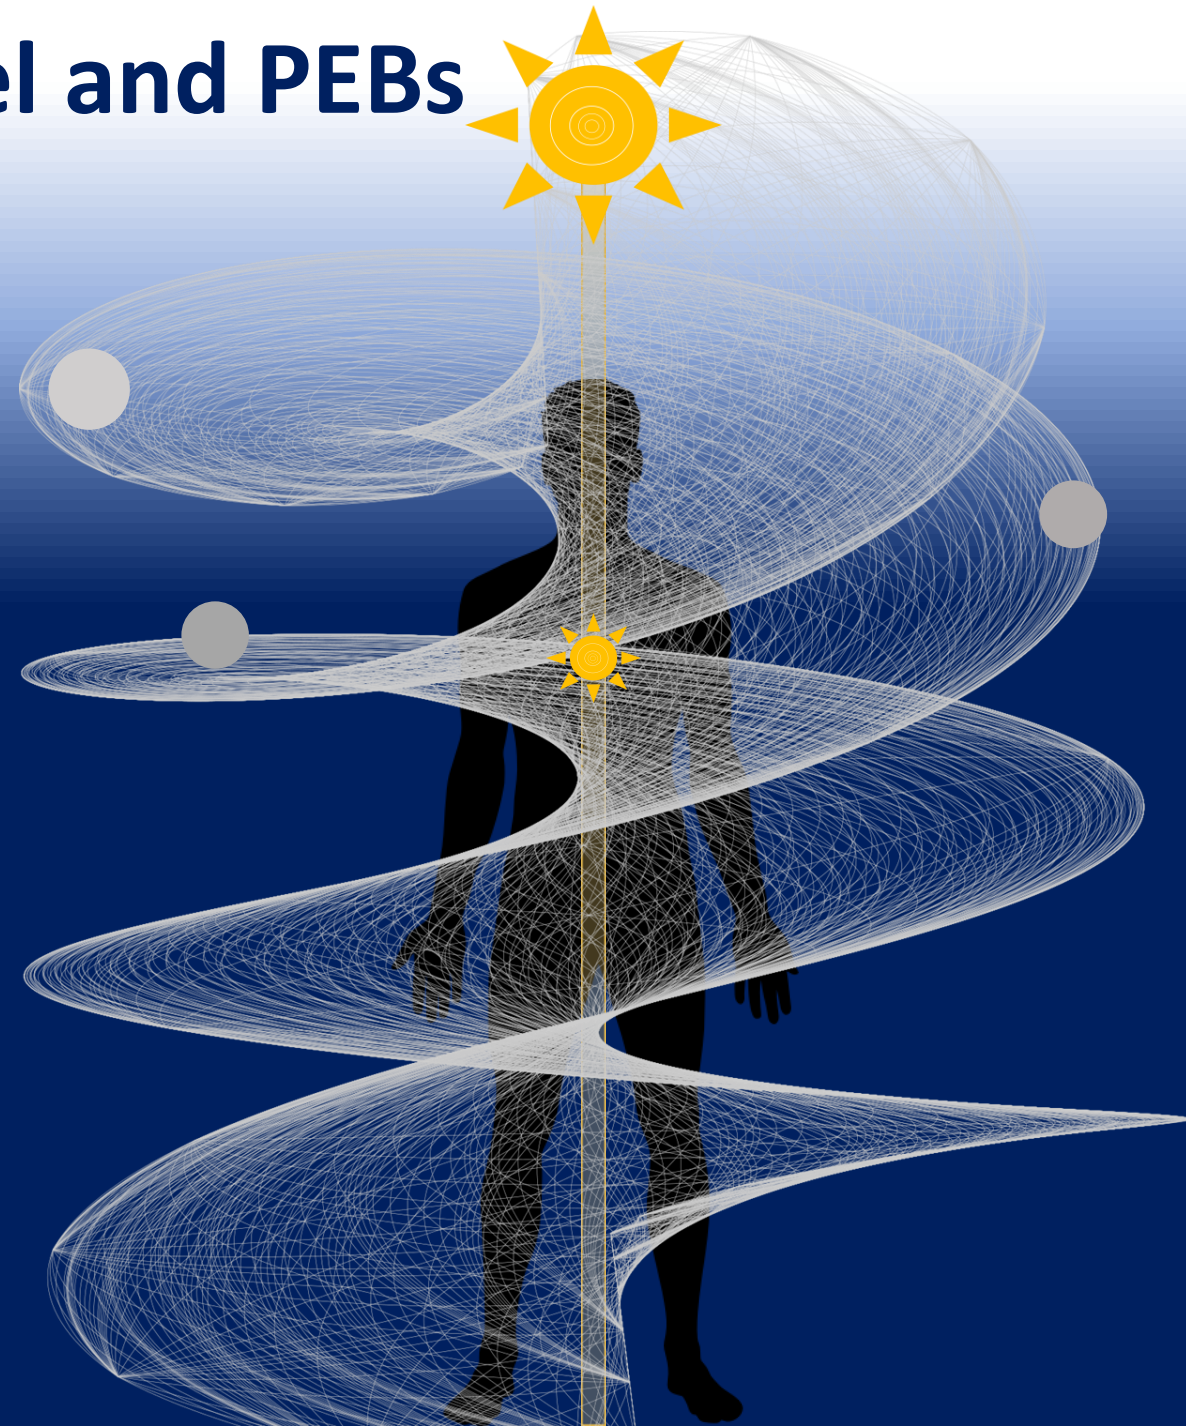

The Helical Model and PEBs

The same happens with the activity of the **bodies of the human personality (PEBs)** and its thoughtforms, where they continue to attract and project configurations of themselves over and over.

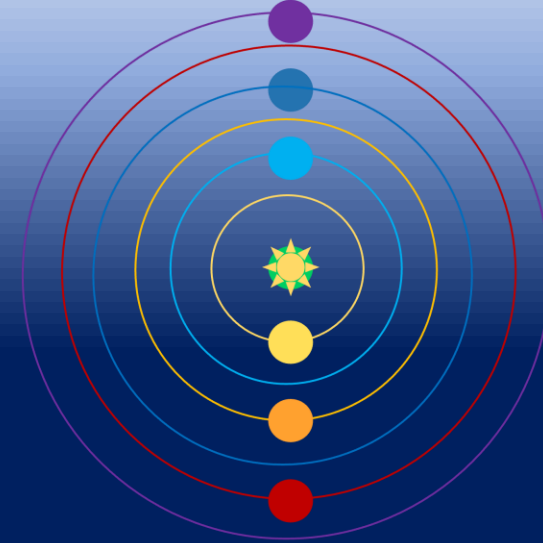

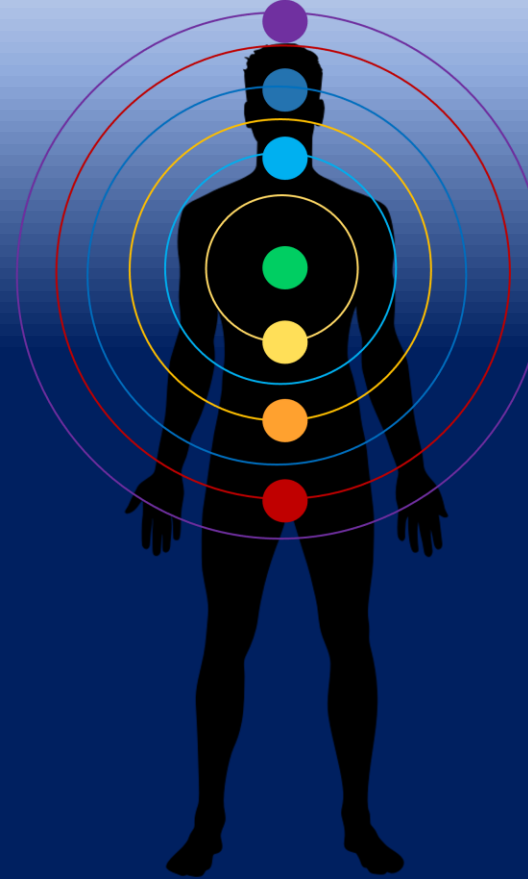

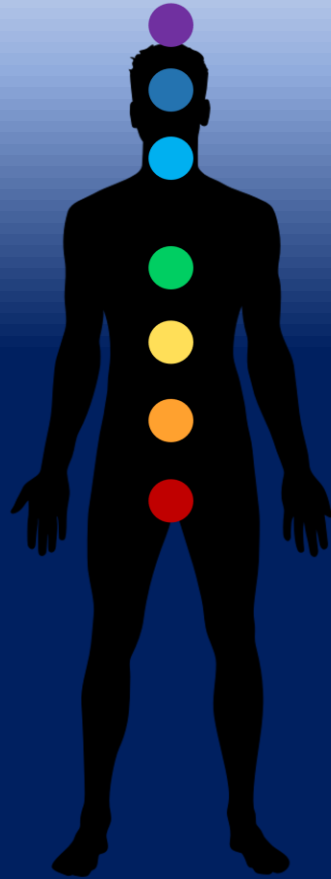

PEBs as fields of energy (creation-substance) revolving around the Spirit-Soul Self (Consciousness).

The Helical Model and Chakras

The trajectory of the planets around the Sun, or of the chakras around Spirit-Soul-Being, follows **the same helical orbit** of forward projection.

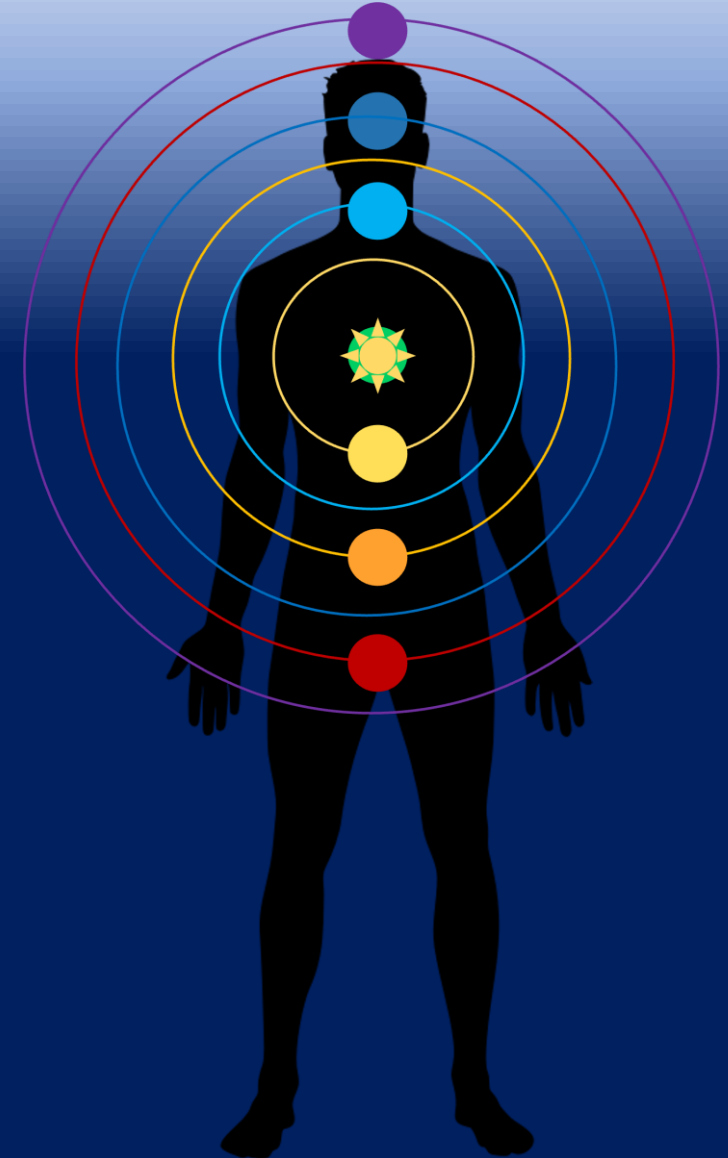

The Helical Model and Chakras

All chakras are satellites of the Spirit/Soul, **determining entry and exit points of energies at different levels.**

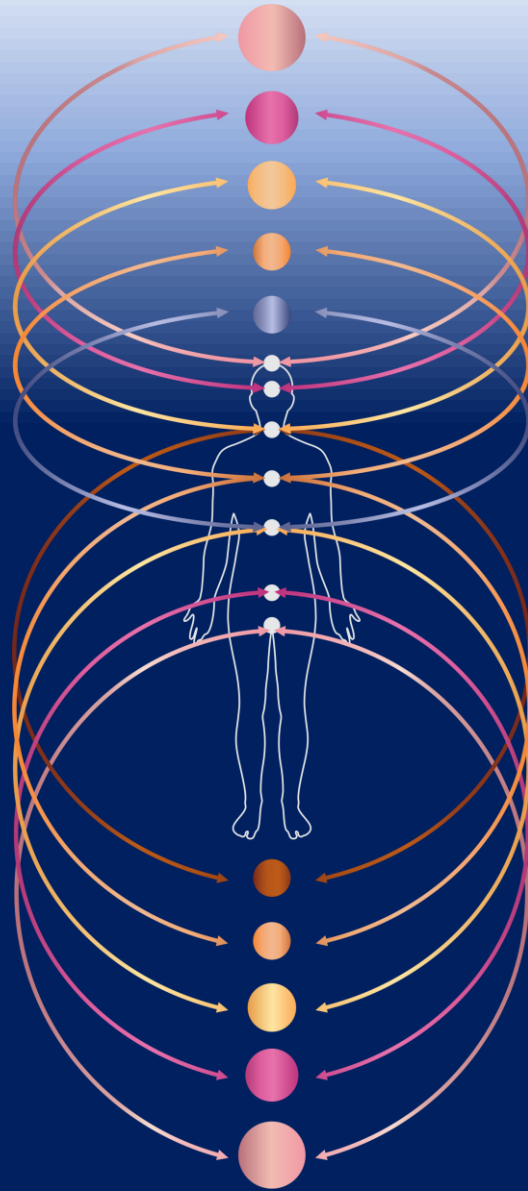

The heart centre is a direct link to Being, to Sun and to Absolute Consciousness, and the **meeting point of all energies and faculties.**

“Conscious” personality is now able to modulate its satellites through the **Sentient Intelligence of the Heart.**

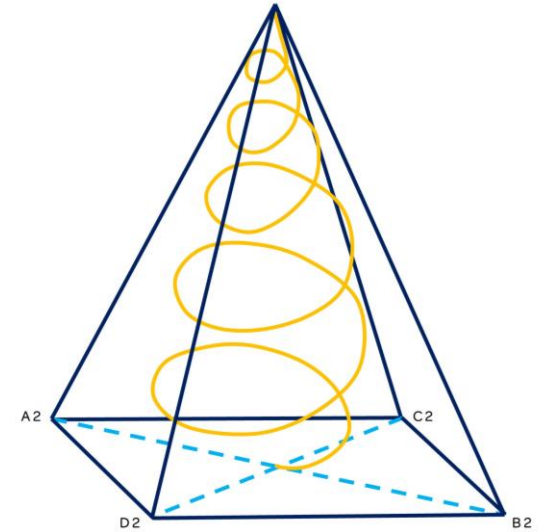

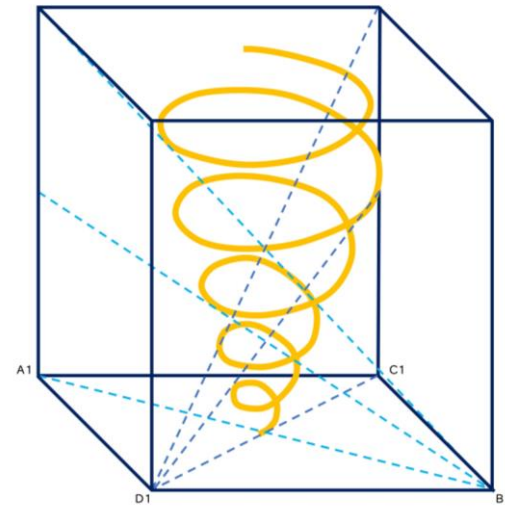

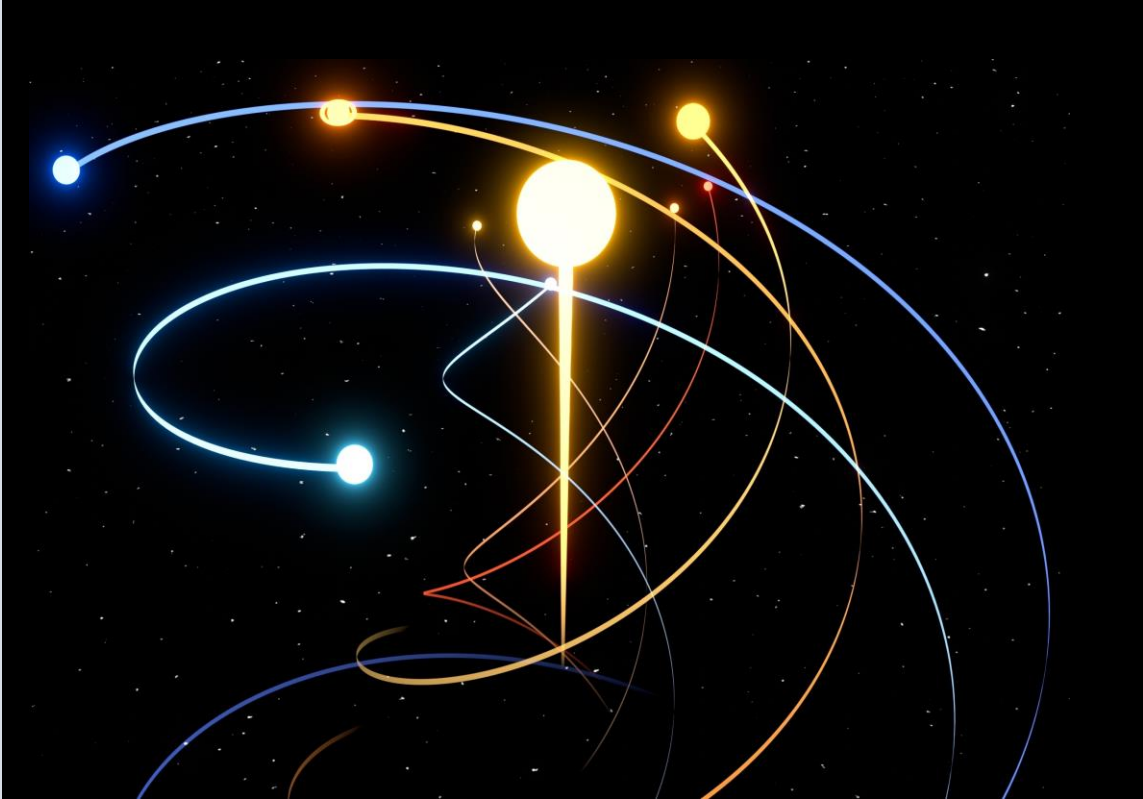

When all planets are aligned, or, when all chakras are coordinated by the Heart, **Illumination happens.**
