

The Feminine Principle

The Masculine Principle

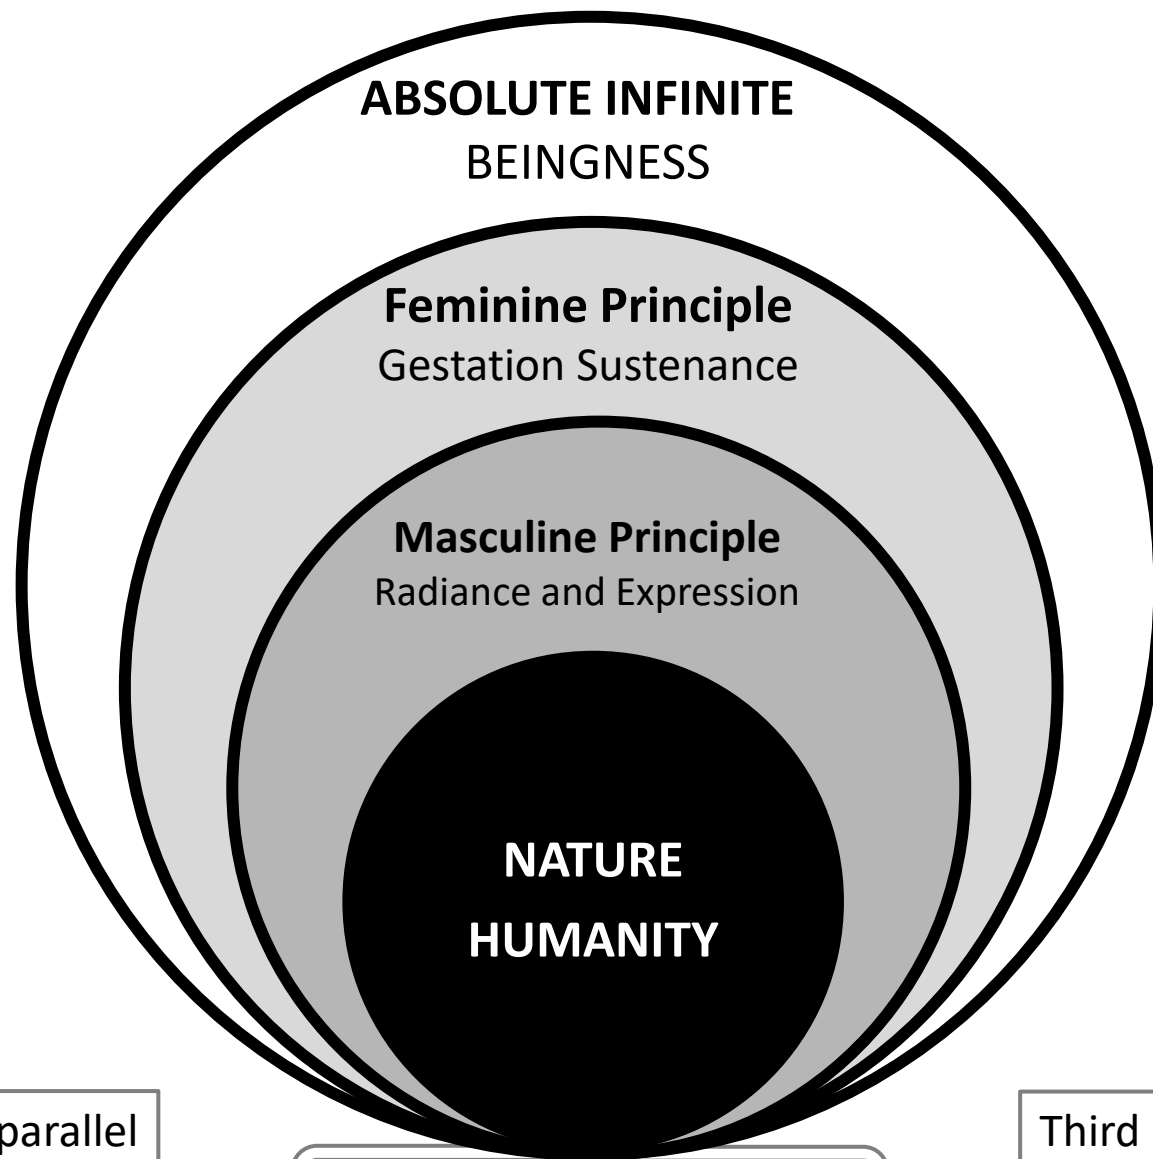

Zulma Reyo
School of Consciousness

THE FEMININE PRINCIPLE is a vortex of attraction,
absorbing and gestating **infinite parallel and simultaneous**
possibilities.

THE MASCULINE PRINCIPLE is the impulse that directs,
structures, gives form and measure, giving perspective, building
and destroying to **eternally express itself.**

The genders are unique and parallel
manifestations of spirit.

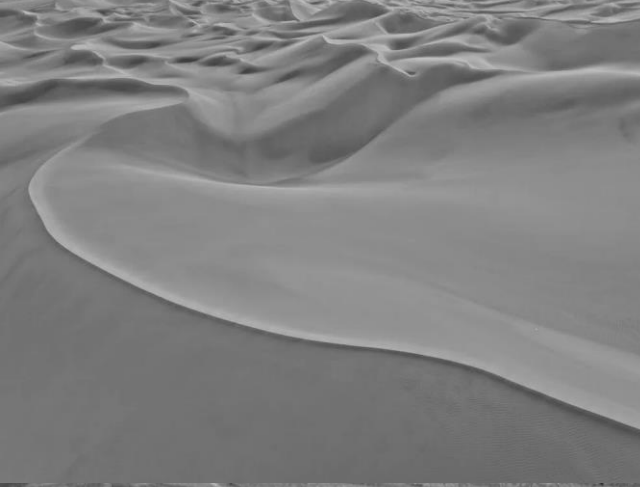

The principle of Quality

WOMAN

Third dimensional expression with two
parallel models of unique experience.

The principle of Form

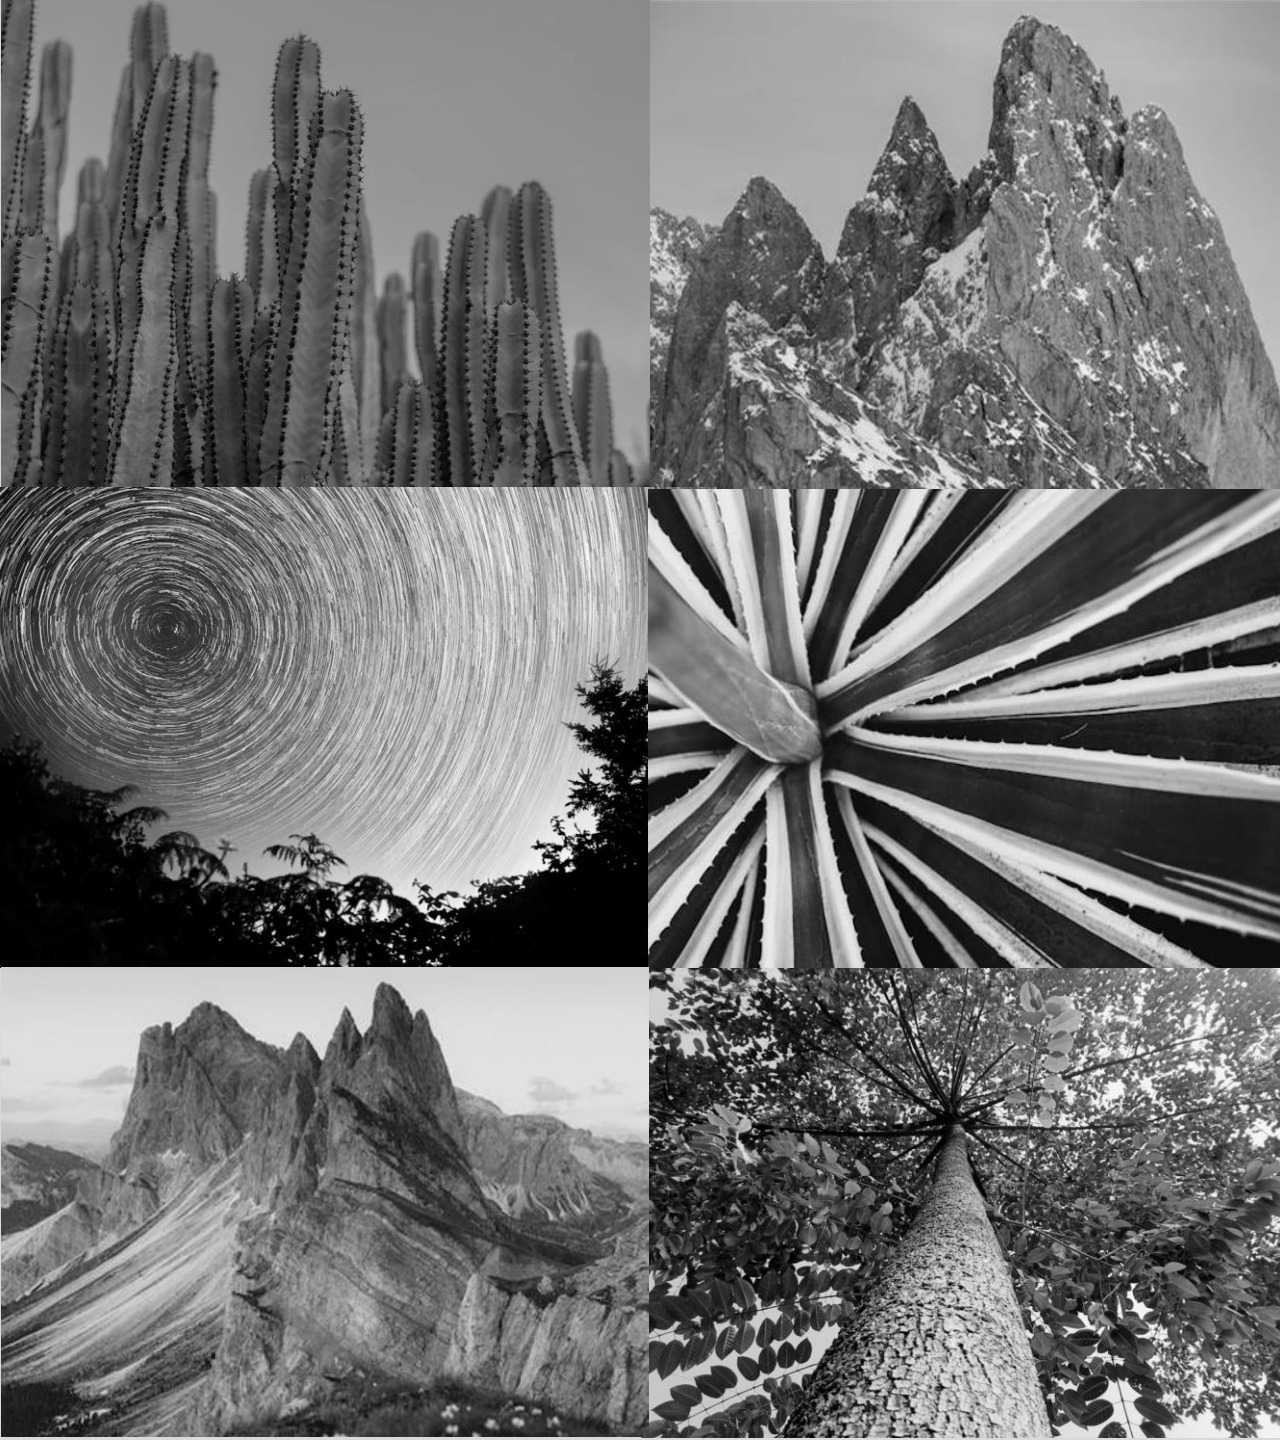

MAN

Woman embodies the **FEMININE PRINCIPLE** as an undulating expression containing empty spaces, free from the constraints of form and yet coherent and permeating.

She feels, relates, and transcends, weaving collective and multidimensional expressions effortlessly.

It reaches beyond time to allow forms to gestate. Its intelligence is sensitive, different from the deliberate and formal process of the male.

Man embodies the **MASCULINE PRINCIPLE**, **directional**, purpose-driven.

He conceives of the world as **multiple possibilities** to conquer, build, expand and define. He accumulates personal power. He imposes authority. Master of **form** and **measure**.

Thought in perpetual activity. Its **sensitivity** is integrated with the **intelligence of silence** and **stillness** within the spiral vortex of constant creativity/renewal.
