Portfolio: <https://olakompala.webflow.io>

Experienced UX/UI Designer with 5+ years of experience in app development, specializing in Figma and Adobe Creative Suite. Designed a widely used application for 5K+ insurance consultants and delivered digital solutions for multinational clients across insurance, finance, transport, and telecommunications sectors. Contributed to the medical platform Remedium, supporting 90,000+ healthcare professionals in Poland as well as cryptocurrency and multiple CRM projects, collaborating with developers and cross-functional teams. With a background in illustration and graphic design, I bring a strong creative perspective to digital product design.

Experience

2025–now

Software Interactive / UX/UI designer

- Designed UX/UI for projects across various industries, including cryptocurrency platforms, internal CRMs, and a public infrastructure measurement platform
- Created wireframes, prototypes, responsive interfaces, animations, and visual design systems
- Collaborated closely with developers and managers to deliver user-focused digital products

2024–2025

Brandmed / UX/UI designer

- Part of the design team building Remedium, a healthcare platform used by 90k+ medical professionals, including doctors
- Created UX/UI solutions, prototypes, and user-centered interfaces in collaboration with designers, developers, product teams, and healthcare professionals

2021–2023

Quico / Junior UX/UI designer

- Designed UX/UI for a mobile insurance application, creating wireframes, prototypes, and responsive interfaces
- Designing interface of the application
- Creating coherent visual communication system of the product (visual identity, icon sets, illustrations)
- Collaborate closely with a team of developers and managers

2017–2021

Freelance UX/UI & graphic designer

- Designed website layouts and landing pages
- Created digital assets for websites, social media, and online campaigns, ensuring brand consistency across various client projects

2015–2016

JmJ Biznes / Graphic designer

- Designed digital and print materials for a company organizing medical conferences
- Created visual assets for promotional campaigns, events, and communication materials

2015–2016
