Education

**HARVARD UNIVERSITY
GRADUATE SCHOOL OF DESIGN**
Master of Architecture
2016 - 2019

UNIVERSITY OF VIRGINIA
B.S in architecture
2009 - 2013

Core Skills

PROJECT MANAGEMENT & TECHNICAL DELIVERY

Concept-to-completion project delivery, consultant coordination, stakeholder communication, design review, documentation management, schedule&budget coordination, risk identification, value engineering

DESIGN STANDARDS & DOCUMENTATION

Design guidelines, drawing review, construction documentation, technical detailing, accessibility/code compliance, sustainability guidelines

VISUALIZATION & PRESENTATION

Design storytelling, client presentations, mood boards, finish palettes, rendering visualization, virtual walkthroughs, 2D technical drawings

Profile

Registered Architect in US and multi-disciplinary design leader with experience across commercial interiors, hospitality, higher education, mixed-use development, and tenant amenity environments. Skilled in leading projects from concept through documentation and execution, coordinating consultants and vendors, translating brand and operational objectives into built environments, and aligning design quality with technical, budget, and schedule requirements.

Experienced in translating client vision, programmatic needs, brand identity, and workplace goals into human-centered spatial solutions. Skilled in concept development, interior architecture, design documentation, consultant coordination, stakeholder presentations, and construction detailing. Brings a strong balance of creative design thinking, technical execution, and project management, with a focus on environments that support innovation, well-being, operational performance, sustainability, and long-term business goals.

Work Experience

ARCHITECT, ASSOCIATE | SASAKI

Jun 2022 - present | Boston, MA

- Lead interior architecture and design delivery for corporate workplace, higher education projects from concept design through documentation and execution, balancing design quality, technical requirements, budget, and schedule.
- Develop design strategies grounded in user experience, brand identity, operational needs, and environmental performance, translating client objectives into coordinated spatial concepts and technical design packages.
- Act as a key point of coordination between clients, internal teams, consultants, engineers, vendors, and local architects through design reviews, drawing coordination, consultant workshops, and stakeholder presentations.
- Prepare and present design vision narratives, mood boards, material palettes, renderings, technical drawings, and virtual walkthroughs to communicate design intent and support client decision-making.
- Review consultant drawings, local architect documentation, and contractor shop drawings to maintain design intent, resolve technical conflicts, and support project delivery.
- Manage internal deadlines and design solutions in alignment with approved budgets, using value engineering and strategic decision-making to balance innovation, quality, constructibility, and cost-effectiveness.

Software Skills

Revit
Dynamo
Enscape
Autocad
Rhino
Miro
Figma
Adobe Creative Suite
Microsoft Office Suite

Credentials

AIA
Member

REGISTERED ARCHITECT
State of Massachusetts, USA
2021 - present

Languages

ENGLISH
CHINESE, MANDARIN
CHINESE, CANTONESE

- Craft architectural and interior details that integrate visual quality, constructibility, durability, and budget considerations.
- Mentor junior designers on concept development, documentation standards, technical detailing, and client presentation materials.
- Initiated BIM automation workflows using Dynamo, reducing repetitive documentation time by approximately 80% and improving drawing accuracy across project teams.

Selected Project highlights:

- Drove the creative direction and concepts for TJX Companies' comprehensive, multi-year phased renovation of their 750,000 SF headquarters, developing mood boards and material palettes aligned with brand guidelines, sustainability goals, workplace performance, and long-term phased implementation.
- Coordinated technical detailing with multiple stakeholders for Amherst College Student Center and Dining Commons in collaboration with Herzog & de Meuron, supporting construction documentation and design intent continuity.
- Led interior design for multiple higher-education projects in China from concept through hand-off to local architects; coordinated across time zones, reviewed local architect drawings and contractor shop drawings, and resolved design/technical issues to maintain design intent.

DESIGNER - ARCHITECT | GENSLER

Aug 2019 - Jun 2022 | Boston, MA

- Delivered interior architecture packages from programming and concept design through construction documentation, including test fits, renderings, finish palette, technical drawings, and client presentation materials.
- Translated client vision, brand identity and operational requirements into spatial planning solutions that supported business goals, user experience, employee well-being, accessibility and code compliance.
- Coordinated with interior design, brand, strategy, marketing, technical, and consultant teams to develop integrated design packages for commercial interiors, tenant amenity and mixed-use projects.
- Developed visuals, including renderings, virtual walkthroughs, diagrams, and technical drawings to communicate design strategies..

Selected Projects highlights:

- Programming, Concept design to Design Development for 225,000 SF of headquarters fit-out for a confidential financial services client at One Post Office Sq in downtown Boston.
- Developed concept and design development packages for tenant amenity spaces at IQHQ's Research and Development District in San Diego,

including lobby, tenant lounge, retail, cycle hub, and event space within a mixed-use life science campus.

- Contributed to concept and design development for JLL's Boston workplace, Bose's Shanghai workplace, and MC Partners, translating brand and workplace goals into spatial concepts and presentation narratives.
- Supported technical documentation for Verizon at The Hub on Causeway and multiple commercial spec-suite projects, coordinating interior design intent with documentation requirements.

● **PRODUCT DESIGNER | VINCERE HEALTH**

Sep 2019 - Feb 2020 | Boston, MA

- Developed brand identity, visual systems, UI concepts, user flows, wireframes, and interactive prototypes for a health-tech startup.
- Conducted user research, competitive analysis, usability testing, and stakeholder reviews to translate user insights into product and brand decisions.
- Produced design documentation and developer hand-off assets to support consistent implementation across digital touchpoints.

● **INTERN | SHIGERU BAN ARCHITECTS**

Jun 2018 - Aug 2018 | Tokyo, Japan

Worked with senior designers on design presentations, 3D modeling with Rhino and making physical models.

● **ARCHITECTURAL DESIGNER | WOODS BAGOT**

Mar 2014 - Nov 2015 | Shanghai, China

- Supported concept through design development for large-scale mixed-use and hospitality projects, collaborating with senior designers across New York and Shanghai offices.
- Developed façade and interior architecture concepts for the JW Marriott Hotel through sketches, 3D renderings, and technical drawings.
- Designed concepts for key tenant and hospitality-style amenity spaces, including lobby, sky lounge, retail, and arrival experiences.
- Produced 3D visualization and design review materials for internal and external stakeholder presentations.

● **INTERN | MAD ARCHITECTS**

Sep 2013 - Feb 2014 | Beijing, China

- Worked with senior designers in the Design Development of the Zendai Himalaya Center.
- Assisted in developing details of facade articulation
- Created 3D visualization for internal and external design reviews.
