

ASR CABINETS

AUDICO CABINETS

The new ASR cabinet series is designed to meet the needs of modern technology. The cabinet frames are assembled with rivets, and the walls are attached with quick-release fasteners. Each cabinet comes with a door.

The materials used for the cabinets are powder-coated cold-rolled and hot-dip galvanized steel sheet. Standard color: black.

FEATURES

Cabinets can also be customized for special sizes and colors. The roof is equipped with two cable entry flanges. The product's total load capacity is 1500 kg. The product has an IP rating of IP30
