

VantaCon CPE Credits

VantaCon 2025: How AI is Rewriting Trust

Earn 2.0 CPE Credits – NASBA Group Live

Course Description

AI is transforming every aspect of security and compliance—and no part of GRC will be left unchanged. At VantaCon 2025, join us for a full-day GRC community event! Be the first to hear exciting product announcements, learn how industry peers and leaders are preparing for big changes, and take part in breakout sessions designed for collaboration. Together, we'll explore not just what's next for GRC, but how we'll write its future.

Learning Objectives

By the end of VantaCon 2025, participants will be able to:

- Explain how AI is transforming GRC by identifying opportunities, risks, and high-impact areas.
- Apply AI tools in security and compliance with effective human oversight.
- Scale GRC programs, including inventorying, integration, and issue management.
- Quantify and communicate the ROI of security and compliance initiatives.
- Build leadership skills to influence and adapt in an AI-driven future.
- Create frameworks for safe, transparent, and trustworthy AI use.
- Anticipate emerging trends and lead conversations on AI and GRC.

- Collaborate with the GRC community to share best practices and shape future standards.
