**WINEMAKING & VINEYARD**

Certified Organic. Zweigelt fermented on Sauvignon Blanc skins & mash. Whole-bunch Zweigelt cofermented with crushed Sauvignon Blanc for about two weeks in stainless steel. It's pressed into a mix of used French oak and stainless steel, where it ages for six months. Unfined/unfiltered and handled by gravity only. 10mg/l SO2 just before bottling. One of three newer, experimental natural wines named after Martin's three daughters, a way for him to continue pushing the limits of his winemaking.
