Weinviertel

Gruner Veltliner 'In Natura'
Schodl

VARIETY:

Grüner Veltliner

FARMING:

Certified Organic

APPELLATION

Niederosterreich

WINEMAKING & VINEYARD

Certified Biodynamic. 100% Grüner Veltliner grown on deep loess and chalky, clay soils. Sourced from the three most important family vineyards Blumenthal, In der Kreuthern and Steinberg. The blended parcels here represent the most important soil types and expositions at the estate. The fruit was slowly pressed and fermented with native yeasts in a combination of concrete egg, clay amphora and large oak barrels. The wine is aged 10 months on the lees in those vessels, and then blended and bottled without fining or filtration. 10mg/l S02 is added at bottling.
