

Year 1 Home Learning 2nd October 2025

Maths

This week we have been focusing on one more and one less.

For your home learning this week using objects from home (**uncooked pasta, buttons, Lego pieces**) place an amount on the table and count how many you have. Then have a go at answering:

1. What is one more than your number?
2. What is one less than your number?

Check if you were correct by adding one and taking one away from your amount.

Then, repeat with different amounts.

Phonics/spelling

This week we are continuing to work on **Phase 4** in Phonics. These are the sounds we have been learning:

bl (blob) br (bran)
cl (clog) cr (crib)

We have also been learning some more CEW: **were, my**

For your home learning please have a go at this fun game to revise our CEW:

Spelling game- <https://ictgames.com/littleBirdSpelling/>

You could also practice writing words with our sounds or some of our CEW. You could even see if you can spot our words in the stories you are reading.

Please see attached a full list of CEW to help you practice.

Topic

In Science we have been learning all about the Ice Age.

For your Home Learning this week, have a go at researching and drawing an animal of your choice that lived during the Ice Age.

Don't forget to bring in your home learning to show us!

Reading

Please try and remember to read your book for 10 minutes everyday.
