

I want to go home (to the tune of Where are you Christmas)

I do not like this

I want to go home

We'll start a brand new day

Things could be better

Its 1880

It's time we have our say.

Our world needs changing

Some rearranging

But they say change it starts with you

I do not like this

It's time to go home

Our dreams could come alive

It's not the same now

Look what the times show

The world has changed around me
