

## Year 3 Home Learning 5th February 2026

**\*\*Grown-ups ~ please supervise your child's home learning so they are attempting the work correctly\*\***

### English

**Invent a new character who could be friends with Maud from our class story.**

- Draw them and write:
  - their name
  - what makes *them* a bit *weird*
  - why they'd get along with Maud

### MATHS

#### Times-tables

Use your times table knowledge to work out bigger multiplication equations.

If you know that  $3 \times 3 = 9$  how can you work out  $13 \times 3$  ?

$$\begin{array}{llll} 3 \times 5 = & \text{so} & 13 \times 5 = & 2 \times 6 = \text{so } 12 \times 6 = \\ 6 \times 4 = & \text{so} & 16 \times 4 = & 5 \times 7 = \text{so } 5 \times 17 = \end{array}$$

#### SPELLINGS - words for said

Can you think of different words that we could use instead of **said**?

Eg "What is she?" *said* Bob.

"What is she?" *asked* Bob.

Remember to **read for at least 20mins every day**. Have a brilliant weekend! ☺
