

Lily and the missing clock

Once upon a time there was a girl called little Lily. She lived in a golden castle with her Mum and Dad the King and Queen.

Every night before bed, Little Lily puts her special magic clock on her bedside table. One morning she woke up and found that the clock was gone!!

She saw her dad in the living room and asked if he'd seen the clock. Her dad said "No Lily". Then she found her mum in the garden, planting tulips. She asked her mum if she'd seen the clock and Mum said "yes, I saw it in your drawer yesterday.

Lily walked back to her bedroom and looked in the drawer, but it was not there. She had looked all over her bedroom and couldn't find it, so she angrily ran to the woods behind her house.

There she met a wolf. Luckily, he was a kind wolf and asked Lily what was wrong. Lily told the wolf that she couldn't find her precious clock and it was making her feel sad. Lily and the wolf looked in all the trees, they looked in the river and under all the bushes but they still couldn't find it. It was time for the wolf to go to work so sadly he had to leave Lily to look by herself.

Just then Lily saw a sparkly trail and followed it all the way to a unicorn. The unicorn asked her if she had looked in space. Lily said "no, I don't know how to get to space". The unicorn gave Lily all the pieces she would need to build a rocket. Luckily, Lily's favourite subject at school was Science and she knew just what to do.

Lily completed her rocket, climbed aboard and saw a big red button! She pushed it and blasted off into space. Lily had a good look around dark space and saw the clock hiding between 2 planets. She steered her rocket to the clock and pulled a lever which sent out a rope to attach to the clock. She quickly pulled the clock in and was so excited she nearly gave it a hug.

Lily returned home, parking her rocket in the woods, so that she could have another adventure tomorrow. That night she put her clock in a drawer to keep it safe.

The End
