

Year 2 Home Learning - 12th March 2026

Science

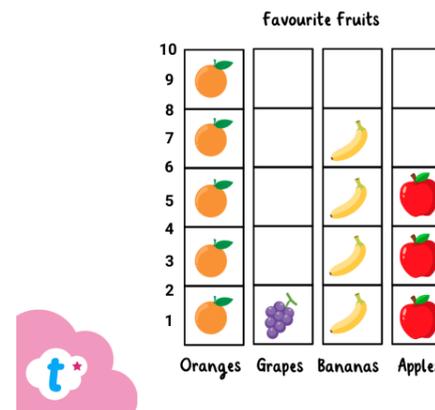

In Science, we have been learning about different materials and how we can help the environment by recycling and reusing items.

For your Home Learning, we would like you to look around your home for things that can be recycled or reused. Draw or make something new using recycled materials and write a short sentence about what you used.

Maths

Complete this week's task on MyMaths all about data (pictograms).

Spelling

We have taken these words from the Year 2 Common Exception word list. We would like you to practise writing these words at home so you can apply them to your writing in class.
