

Year 1 Home Learning 1st October 2026

Maths

This week we have been focusing on one more and one less.

For your home learning this week using objects from home (**uncooked pasta, buttons, Lego pieces**) place an amount on the table and count how many you have. Then have a go at answering:

1. What is one more than your number?
2. What is one less than your number?

Check if you were correct by adding one and taking one away from your amount.

Then, repeat with different amounts.

Phonics/spelling

This week we are continuing to work on **Phase 4** in Phonics. These are the sounds we have been learning:

bl (blob) br (bran)
cl (clog) cr (crib)

We have also been learning some more CEW: **were, my**

You could also practice writing words with our sounds or some of our CEW. You could even see if you can spot our words in the stories you are reading.

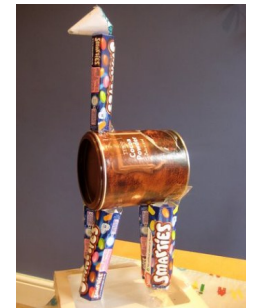

Please see attached a full list of CEW to help you practice.

Here are some phonics games that you could play online (**Phases 2, 3 and 4**)

Topic

In Art, we are getting ready to make our dinosaur models out of junk. This week, we practised joining materials together using tape or glue.

Why not make something at home using some of your everyday recycling? Remember how to join materials together carefully so they don't fall apart.

If you do make something wonderful, we would love to see a photo!

Reading

Please try and remember to read your book for 10 minutes everyday.
