

Geography - The Water Cycle

In Geography, we have been learning about the Water Cycle. We created our own mini water cycles to watch the different stages happening in our classrooms.

We would like you to write definitions of each of these stages of the water cycle. You can draw diagrams to help you to remember them.

Challenge- Can you explain the different stages of the Water Cycle to someone at home?

Remember to read for **at least 20 minutes every day!**

Spellings - words ending in -
ture.

nature

picture

creature

furniture

signature

temperature
