# ADVANCED PRESERVATION. ADVANCED CARE.

Our extensive network encompasses more than 20 exceptionally skilled cardiothoracic and abdominal procurement teams. These teams consist of adept recovery surgeons, proficient sterile surgical assistants, and preservationists, all of whom are rigorously trained in cutting-edge preservation techniques and technologies.

## ORGAN OFFER EVALUATION

Allow our team to screen organ offers, call recipients, and coordinate the logistics behind admission and implantation alongside your in-house staff.

## QUALITY MANAGEMENT SYSTEM

Ensure consistency across all operations with our state-of-the-art QMS, providing structured protocols designed to exceed customer expectations and requirements.

## FULL SUITE OF TRANSPLANT SERVICES

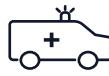

Paragonix provides on-call services with 24-hour availability customized to fit the specific needs of each transplant center across 5 donor organ specialities.

### REAL-TIME COORDINATION

Our logistics coordination services meticulously oversee every aspect of the recovery journey, ensuring that each detail is managed appropriately. Your team remains consistently connected and well-informed about the latest developments throughout the process.

### AIR & GROUND TRANSPORTATION

Paragonix partners with best-in-class air and ground transportation partners in an effort to streamline the travel process. Our trusted transportation partners exclusively employ carriers that adhere to rigorous FAA and TSA inspections, and are operated by seasoned, fully certified pilots.

### ORGAN PROCUREMENT & SUPPLIES

We provide a comprehensive range of services, including all currently utilized donor organ recovery procedures. Upon request, we also provide Paragonix Advanced Organ Preservation devices.

### DCD-NRP PROCUREMENT

Elevate organ access to expand your program while simplifying and minimizing travel-related disruptions for DCD organ recovery. Benefit from world-class DCD recovery clinical leadership equipped with a standardized procurement protocol.
