

Nicola Patrickson Gomes

Kindergarten Teacher

“After completing training and working in the commercial sector, two years ago my path led me into providing care for kindergarten and primary children - including those with special needs such as ADHD/ADS/ASS as well as those needing to improve their German language skills. The additional training as a class assistant in “Heilpädagogik” or curative education inspired me a lot. As a mother and experienced caregiver, it is important to me to support each child with heart, patience and individual support. I love my meaningful work and enjoy incorporating in my two creative passions - painting and drawing – into my roles. At Lakeside School, I look forward to an inspiring and appreciative environment.”
