

Helen Cornu

Kindergarten Teacher

“My aim is to give the kindergarten children a rucksack full of skills, curiosity and wonderful memories to take with them on their journey. I value a warm, resource-orientated approach with my pupils. I particularly enjoy immersing the class in picture book stories and encouraging the children to express their wishes and concerns in the class council. Analogue learning takes centre stage in kindergarten. Media also has its place, it is important to me then that children learn to critically question media content.”
