Building on its established identity, Laguna introduces a more contemporary and experience-driven approach to the seaside, where effortless Mediterranean charm meets a refined and modern Adriatic lifestyle. The result is a destination that feels both familiar and entirely new.

At the heart of this evolution is a **strong international presence**. Through its collaboration with BCH:CLB Dubai, Laguna brings together a diverse team of hospitality professionals from across the world, combining different cultures, expertise and perspectives into one cohesive experience. This international energy is reflected not only in the service, but also in the overall atmosphere, vibrant, confident and distinctly current.

Throughout the season, Laguna follows the natural rhythm of the day, with its **beach club energy** coming to life from the early afternoon. **Days are light, social, and full of movement, shaped by music**, DJs, curated events and a vibrant atmosphere by the sea. It is a place to gather, to connect and to stay a little longer, where energy builds naturally and the beach becomes a scene.

As the sun begins to set, the atmosphere shifts into one of the most defining moments of the experience. Golden hour brings a softer rhythm, setting the tone for the transition into the evening.

A **series of curated concepts defines the season**, from Golden Hour gatherings to expressive weekend moments, alongside gastronomy-led experiences such as Fire and Grill evenings and Fish Market showcases, celebrating fresh seafood and Mediterranean flavors. Everything feels natural to the setting, elevated, yet easy.

Dining remains at the heart of the Laguna experience. The menu is rooted in **Mediterranean traditions** and built around fresh, seasonal ingredients, with a strong focus on seafood. Guests can choose from the daily catch and enjoy it in different styles, from crudo and ceviche to grilled fish, seafood pastas and refined coastal dishes. A **curated wine list** and signature cocktails complete the experience throughout the day.

As **evening arrives, Laguna becomes softer and more intimate.** The restaurant takes the lead, offering elegant dining, beautiful presentation and panoramic views of the Budva Riviera.

"Laguna is about creating a place where people feel the energy from the moment they arrive. It is about atmosphere, connection and attention to detail, but also about creating a feeling of ease that naturally encourages guests to stay, enjoy and return. We want Laguna to feel vibrant and effortless, while still retaining a sense of something special."
