Bringing one of the world’s most distinctive contemporary Japanese dining concepts back to the Adriatic coast, Sumosan marks the beginning of another summer defined by refined cuisine, seaside atmosphere and the vibrant rhythm of Budva nights.

Known for its modern interpretation of Japanese cuisine, polished service and cosmopolitan character, Sumosan has built its reputation across a select number of international destinations. **In Montenegro, the brand has found a setting that gives the concept a rare additional dimension: a restaurant by the sea**, within one of the country’s most exclusive resort environments.

The essence of the brand remains in the cuisine: refined Japanese flavors, carefully selected ingredients, elegant presentation and a style of service that feels international, sophisticated and effortless.

The menu reflects Sumosan's distinctive culinary approach, with dishes that combine precision, creativity and premium ingredients. Guests can discover Yellowtail Tiradito with truffle yuzu vinaigrette, New Style Sashimi with salmon, tuna, yellowtail, ponzu and truffle sauce, Wagyu Beef Tacos with guacamole and lime zest, Wasabi Prawns with mango and passion fruit salsa, Grilled Black Cod with miso sauce and Oven Roasted Chilean Seabass with yuzu soy. Together with the restaurant's sushi, sashimi and maki selection, these dishes give the Adriatic setting a distinctly global character.

Sumosan's beachside location adds another important layer to the Montenegro experience. During the day, guests can enjoy a relaxed lounge atmosphere with beach service, cocktails, sushi and lighter dishes designed for long summer afternoons by the sea. The extended beach area make the daytime offer more comfortable and versatile, while staying naturally connected to the restaurant's main concept.

As the day evolves, the same setting takes on a more vibrant rhythm. **Dinner becomes the anchor of the Sumosan experience, supported by cocktails, music and the atmosphere of the Dukley Riviera after dark.** For the 2026 season, Sumosan After Hours will bring DJ sets every Thursday, Friday and Saturday, creating a natural continuation of the dining experience and adding a more dynamic energy to weekends at Dukley.

The Grand Opening event on 19 June 2026 will officially celebrate the start of the season, followed by a curated summer program with resident and guest DJs, Lunar Escape Parties and Ladies Night.

Now entering its third season in Montenegro, Sumosan continues to strengthen Dukley Hotel & Resort's position as a destination for world-class hospitality on the Adriatic.

With its globally recognized name, contemporary Japanese cuisine, beachside setting and refined evening energy, Sumosan Montenegro stands as one of the key dining and lifestyle experiences of the summer season.
