OWKIN

DATA PARTNERSHIPS

Join our Patient Data Network

Owkin maximizes the value of your data and makes it actionable for AI

Why work with Owkin?

Cutting edge AI

Apply the latest AI technologies and methodologies to your data. 87 publications in high impact journals.

Support

Owkin offers access to K Pro - Owkin's agentic AI for biology - to partners to support their research, data analysis and visualization.

Compliance & privacy

World class security standards enhance patient data privacy and partner data integrity.

9+ years deploying multi-centric projects across different institutional setups.

Data valorization

We make your datasets visible, accessible and actionable to drive discovery, collaboration and impact. Identify new users, use cases, with full transparency over how the data is used.

Be part of the largest multimodal patient data network

Our network of 104 hospitals includes 10 of the top 20 centers globally*.

*According to 2024 Newsweek rankings

DISCOVER OUR THERAPY AREAS

Our hemo-oncology, I&I, neurology & cardiology networks

HEMO-ONCOLOGY

HOPE

Hematology & Oncology Partner Network

mosaic

I&I

MIIDAS

Multimodal Immunology & Inflammation Data Atlas

NEUROLOGY

MINDS

Multimodal Integration of Alzheimers Neurology Datasets

CARDIOLOGY

CORE

Cardio & Metabolic Outcomes Research Network

Increase your dataset visibility with K Pro

K PRO

List data through K Pro, our AI scientist

K Pro data is explorable to biotech and pharmaceutical users - and searchable by K Pro's language model.

Make your data work harder.

DATA MAPPING CASE STUDY

Atlantis discovery program

Data mapping across 7 countries in 11 therapeutic areas.

ATLANTIS brought together fragmented data across Owkin's partner network, mapping data availability, modalities and clinical features for our partners' and Owkin's use.

RESEARCH EXCELLENCE

87 academic publications

Owkin publishes regularly with our partners in top academic journals.

2025 highlights include metastatic relapse prediction in Scientific Reports, MOSAIC technology comparison in Nature Communications and FedECA in Nature Communications.
