

FCC

FOREST COMPLIANCE CONSULTORIA

Forest Compliance Consultoria (FCC) provides consulting services for international wood importers, aiming to avoid illegally harvested timber and train their supplychain. Our services are led by qualified professionals, including independent forest engineers with long-time experience in the industry.

Our **compliance checks** take place throughout the chain of custody:

**Timber
harvesting**

**Timber
transportation**

**Timber processing
activities**

**Trading
activities**

FCC assists importers in purchasing tropical timber products **in a responsible manner** and **complying with regulations**. We're based in Brazil and are active in three countries:

FCC provides you with **a full report on the Chain of Custody**. Supporting documents are made available, such as transportation and export documentation.
