## WHAT MAKES US FABRICK

### OUR FOUNDERS

JC and Dylan share a brotherly bond and a deep partnership, built on years of collaboration. Together, they've successfully renovated and flipped over 400 homes, along with building more than 100 ADUs.

With each project, their unwavering focus is on client satisfaction, achieved through clear communication and exceptional craftsmanship. As local, highly responsive professionals, they are dedicated to guiding you through every step of the ADU building process, ensuring a seamless experience from start to finish. When you partner with us, you can count on meticulous attention to detail and a commitment to delivering with care and precision.

### THE FABRICK OF OUR COMPANY

Founded in early 2023, Fabrick is backed by a leadership team with over 40 years of collective experience in building homes and ADUs. Even before launching Fabrick, JC and Dylan had a clear vision for addressing long-standing issues in the construction industry by applying principles that are standard in other thriving sectors: stellar communication, refreshing transparency, and leveraging modern technology to drive efficiency.

As business school graduates and seasoned entrepreneurs, JC and Dylan have founded six companies, collectively generating over a billion dollars in revenue. Their true competitive edge lies in their business-first approach. Unlike many who enter construction from the trades, they honed their skills in operations, business development, and finance before earning their construction licenses.

Today, JC and Dylan have assembled an exceptional team to build your ADU. This includes not only behind-the-scenes experts who champion their core principles, but also great subcontractors with decades of experience in their respective trades. Most importantly, every member of the team embodies Fabrick's core values, starting with their #1 principle: Lead with integrity.
