

Notice of Privacy Practices

A HIPAA covered entity is required to provide patients with its notice of privacy practices.

Required elements of the notice are listed in CFR 164.520. Some of these elements include:

- Descriptions and a few examples of the types of uses and disclosures of protected health information that the covered entity is permitted to make without the individual's written authorization, including for each of the following purposes: treatment, payment and health care operations.
- A description about other types of uses and disclosures of protected health information that require the covered entity to obtain the individual's written authorization.
- A statement on the individual's rights with respect to the information and a brief description of how those rights may be exercised.
- A review of the covered entity's obligations with respect to protected health information.

Instructions for the Dental Practice

1. Fill in the information on the first and last pages of the notice. Newly required elements are required to be included in the notice by Feb. 16, 2026.
2. Edit the notice to better describe the ways your practice uses and discloses protected health information, for example, if your practice uses artificial intelligence to assist with taking treatment notes or has a surveillance camera in treatment areas.
3. A separate sample acknowledgement form is included. An optional method is to add the acknowledgement statement to another document with other statements for which the patient's signature is necessary, a consent to communicate via text, for example. The acknowledgement statement should be separately signed or initialed by the patient.
4. Provide the notice to a patient at the first encounter and obtain their acknowledgement of receipt. If the patient refuses to sign the acknowledgement, note refusal in the patient record.
5. Add the notice content to the practice website, with a link to the notice on the home page.
6. Post the notice in a public area of your office, where a patient is likely to view it. The sample notice is a layered version. The first page is a summary of the complete notice, with references to the pages on the full notice where detailed information is located. Post the first page on the wall and have the remaining pages located as close as possible to the posted page.
7. Provide the entire notice to any individual upon request.

When the notice is revised, either because it is required by law or the covered entity wants to revise it, notify patients of where they can obtain or view a revised notice. It is not necessary to distribute the new notice to current patients or to obtain new acknowledgements of receipt.

Dental practices that receive payments from Medi-Cal Dental, Optional Targeted Low-Income Children's Program (OTLICP, formerly known as Healthy Families), Medicare Part B, Medicare Advantage plans (Part C) and ACA/Covered California plans must comply with the nondiscrimination requirements of the Affordable Care Act Section 1557. A notification statement and language taglines are included as part of these resources. If your dental practice is not required to comply with this rule, you need not include the taglines.

For more information on the permitted uses and disclosures of patient information, see [Uses and Disclosures of Patient Health Information](#) on cda.org.
