

## Video Platform

Welcome to the knowledge center for personalized medicine! Our platform is a centralized hub for pharmaceutical compounding courses, medical scientific training, and more.

### Course contents

## Introduction to genomics and personalized treatments for hair loss

This course focuses on pharmacogenetics and its application in personalized trichology, focusing on TrichoTest™ for conditions like Androgenetic Alopecia, Alopecia Areata, and Telogen Effluvium. It will explore genetic factors influencing drug response, interpret genetic data, and integrate it with patient reports. Dr. Gustavo Torres will lead the course through a mix of lectures and case studies, emphasizing practical skills in developing personalized treatment plans. Key topics include pharmacogenetics, basics aspects of the TrichoTest and its clinical applications. This course is ideal for healthcare professionals seeking to enhance their expertise in personalized medicine and trichology.
