Personalized treatments for neonates: an understanding of suspending vehicles

Pediatric and neonate patients are sensitive groups when it comes to different diseases and their traditional treatments. The limitation of dosing and pharmaceutical forms of certain medications can restrict the treatment options significantly, in addition to present possible risks to the patient's health. In this course, Dr. Carolina Silva, Pediatrician, will discuss the impact of certain diseases in neonate patients, as well as innovative solutions to provide personalized treatment options that can improve and increase the safety of certain treatments.
