

## Ordering

500239 – 500 gm

## Applications

Dermatology

Cosmeceutical Care

Age Management

## API Load

Mid (up to 20%)

## Compatible Solvents

Diethylene Glycol

Monoethyl Ether

Glycerin

Propanediol

Propylene Glycol

Purified Water

## Product Highlights

Cleoderm Clarifying Cream is a functional vehicle specially developed for acne or rosacea treatments. Cleoderm was formulated from Cleome gynandra leaf extracts with the addition of hyaluronic acid, bisabolol, and biomimetic peptides. This unique combination of ingredients provides anti-inflammatory and humectant properties as well as sebum reduction.

- Light and elegant formula
- Compatible with a broad range of APIs and DCIs
- Formulated without fragrances, dyes, parabens, mineral oils, SLS, propylene glycol and ethoxylates

## Ingredients

Aqua, Hydrogenated Sunflower Seed Oil Polyglyceryl-3 Esters, Hydrogenated Sunflower Seed Oil Glyceryl Esters, Cetearyl Alcohol, Sodium Stearoyl Lactylate, Propanediol, Undecane, Tridecane, HEA/Sodium Acryloyldimethyltaurate/Stearate-20 Methacrylate Copolymer, C13-14 Isoparaffin, Polysorbate 80, Decyl Glucoside, Glycerin, Palmitoyl Tripeptide-8, Propanediol, Rutin & Hydroxycinnamic Acid {from Cleome gynandra leaf extract}, Phenoxyethanol, Ethylhexylglycerin, Bisabolol, Edetate Disodium Dihydrate, Simethicone, Hyaluronic Acid Sodium Salt, Persea Gratissima Oil, Simmondsia Chinensis Seed Oil, Rosa Canina Flower Oil, Tocopheryl Acetate, Cocos Nucifera Oil, Lavandula Angustifolia Herb Oil, Melaleuca Alternifolia Leaf Oil, Rosemarinus Officinalis Leaf Oil, Butyrospermum Parkii Butter, Caprylic/Capric Triglyceride

## Specifications

Cleoderm is a white, unscented cream.

- pH: 4-6.5
- Specific Gravity: 0.98 g/mL
- Viscosity: 75,000 – 176,000 cPs

## Formulas

#FA22582 Cimetidine 1% - Niacinamide 4% - Spironolactone 4% Cream in Cleoderm

#FA23004 Hydroquinone 4% - Kojic Acid 3% - Hydrocortisone 1% Cream in Cleoderm

#FA11182 Minocycline 3% - Niacinamide 4% - Benzoyl Peroxide 5% Cream in Cleoderm
