## Product Highlights

Occluvan is a hydrophilic ointment base with a unique, innovative formulation that provides both occlusion and hydration effects. It offers an ideal compounding vehicle for a broad range of lipophilic and hydrophilic active pharmaceutical ingredients and dermatological ingredients.

- Protective ointment base with easy spreadability
- Occlusive, emollient, protective and humectant effects
- Skin-friendly formulation without preservatives
- Enhances permeation of ingredients into deeper skin layers

## Ingredients

Olus oil, Sorbitan olivate, Cera alba, C30-45 alkyl methicone, C30-45 olefin, Tocopheryl acetate

## Specifications

Occluvan is a shiny, white-to-off white ointment

- Viscosity: ♦♦♦♦♦

## Formulas
