Dental

Pediatrics

Pain

Product Highlights

Letco's Sorbitol Lollipop Base is a sugar free base suitable for formulating lollipops and lozenges. Lower melting temperatures make this hard candy base easier to work with than others. Sorbitol Lollipop Base is flavorless, allowing for the compounder to customize flavors for their patients.

- Flavorless
- Sugar free
- Low melting temperature

Ingredients

Sorbitol, Polyethylene Glycol, Citric Acid

Specifications

Sorbitol Lollipop Base is a white, solid base.

- Melting point: 60°C
- Density: 1.355 g/mL
