

## Vehicles and Formulations Erectile Dysfunction

### Troche Base Sugar-Free with Bitter-Bloc

Troche Base SF with Bitter-Bloc is a troche vehicle that is enhanced with sweeteners, suspending agents and a bitterness suppressor. It is ideally suited for oral and buccal absorption of active pharmaceutical ingredients (APIs). Additional flavors and sweeteners can be added to meet patient preferences. To use, heat the base to 50°- 60°C until liquified. Add the active pharmaceutical ingredients to the liquid and mix thoroughly. Pour the mixture into a mold and allow to cool to room temperature. The resulting dosage form is a waxy, hard troche.

### Versatile

Versatile is a highly elegant vanishing cream. With its unique formulation, this vehicle offers versatility for compounding challenges as it retains its consistency with a broad variety of active pharmaceutical ingredients (APIs), dermatological ingredients (DCIs) and solvents. Versatile is ideal for both prescription compounding and basic skin care and suits the needs of balanced and dehydrated skin. This product is free of fragrances, dyes, parabens, mineral oil, SLS, propylene glycol and 1,4-dioxane and is gently preserved.
