Vitiligo

Cleoderm

Cleoderm Clarifying Cream Base is an innovative emulsion with light skin feel for use in topical dermatological compounding. It provides a fresh, soft, non-sticky feel with an overall elegant sensory experience at pick-up, rub-in, and after application, even after compounding. Cleoderm contains sustainable plant oils, plant extracts and plant emulsifiers shown to reduce excessive sebum production. Cleoderm can maintain a strong viscosity through an extremely wide pH range. It is especially effective at low pH formulations due to sunflower wax-esters that have a unique botanical composition with carbon lengths C38-C50. This helps increase the formulation stability and contributes to the emollient properties of the base. Cleoderm also contains a biometric peptide with anti-inflammatory properties to help calm and soothe irritated skin. This product is free from dyes, parabens, mineral oil, SLS, propylene glycol and petrolatum.

Nourivan Antiox

Nourivan Antiox is an antioxidant-enriched protective oil in water cream. With its unique formulation, this vehicle offers the ideal compounding vehicle for active pharmaceutical ingredients (APIs) and dermatological ingredients (DCIs) susceptible to oxidation, such as those often used for hyperpigmentation or melasma, without the need for additional antioxidants. Nourivan Antiox may be used on balanced or dehydrated skin and contains hydrating ingredients such as vitamin E to improve skin feel.

Versatile

Versatile is a highly elegant vanishing cream. With its unique formulation, this vehicle offers versatility for compounding challenges as it retains its consistency with a broad variety of active pharmaceutical ingredients (APIs), dermatological ingredients (DCIs) and solvents. Versatile is ideal for both prescription compounding and basic skin care and suits the needs of balanced and dehydrated skin. This product is free of fragrances, dyes, parabens, mineral oil, SLS, propylene glycol and 1,4-dioxane and is gently preserved.

FA-23003	Phenylalanine 10% Cream (Versatile™)
FA-21473	Monobenzone 20% Cream (Nourivan™ Antiox)
FA-23012	Epigallocatechin Gallate (EGCG) 5% Cream (Cleoderm™)
FA-21243	Tacrolimus 0.1% Topical Solution
