Propanediol

Product Highlights

Seraqua is an ultra-light O/W serum base with an innovative and elegant formulation. It is ideal for application on the facial area. The presence of silicones guarantees hydration and skin protection without an occlusive effect. Seraqua is specially designed to incorporate high concentrations of active pharmaceutical ingredients and dermatological ingredients. Due to its excellent spreadability, only a small dispensing quantity is needed.

- Innovative hydrophilic serum base
- Hydration and skin protection without an occlusive effect
- Non-comedogenic
- Suitable for oily, balanced and dehydrated skin
