### Course contents

## Infertility Assessment - Part II - Diagnostic Tools and Advanced Investigations

This advanced course builds on the foundations of Part 1, delving deeper into the diagnostic strategies and referral considerations for infertility in both men and women. Led by Dr. Melina Stasinou, it covers key topics such as hormone testing, pelvic ultrasound, tubal patency evaluation, and semen analysis, along with their interpretation. Participants will explore when and how to pursue further testing—including hysteroscopy, microbiome profiling, DNA fragmentation, genetic screening, and immunological work-ups. The course also addresses the challenges of unexplained infertility, offering insights into emerging evidence and clinical pathways for thorough assessment and personalized management.
