

## Video Platform

Welcome to the knowledge center for personalized medicine! Our platform is a centralized hub for pharmaceutical compounding courses, medical scientific training, and more.

### Course contents

## FagronLab™ Essentials - Quick Start Series

To drive continuous improvement in pharmaceutical compounding, Fagron created FagronLab™ - a portfolio of personalized compounding solutions supported by ongoing investment in laboratory technologies for compounding pharmacies. Through science-driven R&D, innovative equipment, and robust processes, Fagron helps translate scientific advances into practical, industry-aligned standards, enabling compounded medicines to meet high expectations for quality and patient safety.

FagronLab™ has developed a range of devices, described in more detail in this portfolio, designed to improve reproducibility and operational efficiency in compounding practices. The equipment's operation and design prioritize accuracy and ease of use for pharmacists and pharmacy professionals, with practical, pharmacy-focused features that support routine workflows. By combining specialized R&D services, advanced laboratory analysis, dedicated compounding equipment, and tailored laboratory concepts, FagronLab™ contributes to safer, higher-quality, and more effective personalized medicines.
