

TRICHOFOAM™

Alcohol-Free Foam Vehicle

TrichoFoam™ is an alcohol-free foam vehicle designed for water-soluble and select liposoluble actives, formulated with gentle, non-irritating, and sensory-pleasing ingredients. Featuring patented TrichoTech™ technology, it maximizes prescription results through physiological improvement of the cellular environment. It has been shown to be an ideal, stable vehicle for minoxidil base up to 7% — the only form of minoxidil that is therapeutically proven.

HIGHLIGHTS

- **Minimal Oiliness** — Delivers a soft foam texture that applies cleanly without a heavy or greasy feel.
- **Localized Application** — Designed for targeted, precise delivery to the scalp.
- **Simplified Compounding** — Streamlines the compounding process for a more efficient prep workflow.
- **Broad Ingredient Compatibility** — Compatible with water-soluble actives and select liposoluble actives, supporting a range of formulations.
- **Backed by Published Compatibility Data** — Supported by a stability study evaluating multiple APIs — including minoxidil, finasteride, spironolactone, and latanoprost — in TrichoConcept™ vehicles.

SAMPLE FORMULAS

- FA-24389** – Minoxidil 7%, Ketoconazole 2% Topical Foam (TrichoFoam™)(BUD Study)
- FA-23559** – Dutasteride 0.1% Topical Foaming Solution (TrichoFoam™)(BUD Study)
- FA-23556** – Caffeine 0.1% Topical Foaming Solution (TrichoFoam™)(BUD Study)

BUD Studies

Studies supporting extended dating up to 180 days.

Alcohol & Propylene Glycol-Free

Formulated without alcohol or propylene glycol, reducing the risk of dryness or irritation.

Soft, Drip-Free Foam

Provides a gentle foam with minimal oiliness for clean, localized application.
