

SERAQUA™

Ultra-light Oil-in-Water Serum

Seraqua™ is an ultra-light O/W serum base with an innovative, elegant formulation ideal for the facial area, including the eyebrows and eyelids. Its silicone content promotes hydration and skin protection without an occlusive effect, and excellent spreadability means only a small dispensing quantity is required. Seraqua™ is specially designed to incorporate high concentrations of APIs suiting oily, balanced, dehydrated, and specific skin areas.

HIGHLIGHTS

- **High-capacity compounding vehicle** — specially designed to incorporate high concentrations of APIs
- **Ideal for the facial area** — suitable for delicate zones, including the eyebrows and eyelids
- **Formulated without common irritants** — free of fragrances, dyes, parabens, mineral oils, SLS, propylene glycol, and ethoxylates
- **Excellent spreadability** — a small dispensing quantity goes a long way, minimizing product waste
- **Dermatologically and clinically tested** — demonstrated not to produce clinical signs of irritation or discomfort in participants and found to be non-comedogenic and non-acnegenic per the Acne Lesions Assessment.

SAMPLE FORMULAS

- FA-21916** – Niacinamide 5% - Aloe Vera 0.5% Serum (Seraqua)
