

SYRSPEND® SF ALKA DRY

Pre-Measured Alkaline Suspending Base

SyrSpend® SF ALKA Dry is a pre-measured alkaline suspending base for reconstitution, designed to compound elegant oral liquid dosage forms with a pleasant, cherry-flavored taste. Its validated, graduated dispensing container enables an easy three-step compounding process directly into the container itself. Using active suspending technology, it delivers more accurate dosing by stabilizing the suspension at rest and preventing insoluble ingredients from caking

HIGHLIGHTS

- **Simplified Three-Step Compounding** — Reconstitutes directly in a validated, graduated dispensing container for a fast, streamlined process.
- **Broad API Compatibility** — Compatible with an extensive range of active pharmaceutical ingredients.
- **Low Osmolality** — Maintains low osmolality (<50 mOsmol/kg) for a gentle, well-tolerated vehicle.
- **Preservative-Free** — Formulated without preservatives, reducing potential irritants in the final preparation.
- **Two Flavor Options** — Available Unflavored for neutral applications or in Cherry for enhanced palatability, especially with pediatric and geriatric patients.

SAMPLE FORMULAS

- FA-23140** – Pantoprazole 2 mg/mL Oral Suspension (From Tablets)(Syrspend SF ALKA)
- FA-22641** – Omeprazole 5mg/ml Oral Suspension (Syrspend ALKA)
- FA-21488** – Esomeprazole 3 mg/mL Oral Suspension (Sugar-Free) (SyrSpend SF ALKA)
- FA-21312** – Furosemide 10 mg/mL Oral Suspension (SyrSpend SF ALKA)

Active Suspending Technology

Stabilizes the suspension at rest and prevents caking of insoluble ingredients at the bottom of the bottle.

Buffered for Acid-Labile APIs

Buffered to pH >7.0 to maximize the stability of acid-sensitive active ingredients.

ORDERING

Unflavored

500019 – 60 mL
500018 – 100 mL
500855 – 500 g

Cherry

500021 – 60 mL
500020 – 100 mL
500886 – 500 g
