

SYRUP VEHICLES

Simple Syrup NF & Cherry Syrup (Dye-Free)

Fagron offers two classic sucrose-based syrup vehicles for compounding oral liquid dosage forms. Simple Syrup NF provides a neutral, unflavored base ideal for taste-masking bitter or sour actives, while Cherry Syrup comes pre-flavored and dye-free for fast, ready-to-use suspension formulation. Both are compatible with a wide range of water-soluble and hydrophilic active ingredients, supporting pediatric and geriatric dosing needs.

HIGHLIGHTS

- **Full Flavoring Flexibility (Simple Syrup NF)** — Contains no added flavor, giving pharmacists complete control to customize preparations as needed.
- **Ready-to-Use Convenience (Cherry Syrup)** — Cherry flavoring already added, allowing for quick and easy suspension formulation without extra steps.
- **Versatile Salt Form Compatibility** — Simple Syrup NF holds many water-soluble actives and their salt forms, extending formulation range.
- **Established Use in Vulnerable Populations** — Both have a long track record supporting accurate oral dosing for infirm, pediatric, and geriatric patients.

SAMPLE FORMULAS

FA-12665 – Progesterone 10 mg/mL Oral Suspension
FA-12818 – Gabapentin 100 mg/mL Oral Suspension
FA-12277 – Baclofen 1 mg/mL Oral Suspension
FA-12171 – Ursodiol 50 mg/mL Oral Suspension
FA-12302 – Nifedipine 4 mg/mL Oral Suspension

Taste-Masking Power

Both syrups mask bitter or sour-tasting drugs for improved patient acceptance.

Broad API Compatibility

Compatible with a wide variety of water-soluble and hydrophilic active ingredients.
