

TROCHE BASE SF W BITTER-BLOC™

Sugar-Free Troche Base

Troche Base SF with Bitter-Bloc™ is an anhydrous, sugar-free troche base that offers an easy, convenient alternative to time-consuming traditional troche preparations. Enhanced with natural sweeteners, suspending agents, and natural bitter-blocking technology, it's ideally suited for buccal absorption of APIs. Pre-formulated with pharmaceutical-grade polyethylene glycol, xanthan gum, and Stevia, it simplifies compounding to a simple melt-and-add process.

HIGHLIGHTS

- **Buccal Absorption Optimized** — Ideally suited for lozenge-type oral/buccal cavity preparations that support buccal absorption of active ingredients.
- **Fully Customizable** — Additional flavors, colors, and sweeteners can be easily incorporated to fit patient preference.
- **Broad Application Range** — Suited for dental, HRT, pain, and sexual dysfunction compounding needs.
- **Consistent Melting Behavior** — A defined melting point of 42–46°C supports predictable, repeatable compounding.
- **Allergen-Friendly Profile** — Gluten-free and non-GMO/vegan compliant, with no required allergen declarations for major allergens like corn, milk, egg, tree nut, or soy.

SAMPLE FORMULAS

- FA-24398** – Estradiol 1 mg Troche (Troche Base Sugar Free with Bitter-Bloc™) (1.0 mL mold)
- FA-24263** – Sildenafil 100 mg - Tadalafil 20mg in Troche Base Sugar Free with Bitter-Bloc™ (1.0mL mold)
- FA-24144** – Enclomiphene Citrate 12.5mg - Testosterone 50mg Troche (Troche Base Sugar Free with Bitter-Bloc™) (1.0 mL mold)

Easy to Measure & Use

Pre-sweetened and pre-formulated — just melt and add API and flavor.

Bitter-Bloc™ Technology

Natural bitterness-blocking technology masks bitter and metallic off-notes from actives like progesterone.

Sugar-Free

Formulated without sugar, using natural sweeteners for broader patient suitability.
