

# VANISHING CREAM

*Versatile Oil-in-Water Cream Base*

Vanishing Cream is an easily absorbed, non-greasy oil-in-water (O/W) emulsion base designed for general compounding use. It's compatible with a wide variety of active pharmaceutical ingredients and excipients, offering a cosmetically elegant, non-occlusive finish. Its light viscosity and broad compatibility make it a versatile choice across cosmetic, dermatology, and HRT applications.

## HIGHLIGHTS

- **Easily Absorbed** — Delivers rapid, comfortable absorption without a heavy or lingering feel.
- **Non-Greasy Finish** — Leaves skin smooth with no sticky or oily residue.
- **Cosmetically Elegant** — Provides a refined, pleasant application experience suitable for daily use.
- **Non-Occlusive** — Allows the skin to breathe naturally, supporting comfortable long-term use.
- **Broad Compatibility** — Works well across a wide range of APIs and excipients, suiting general compounding needs.

## SAMPLE FORMULAS

- FA-13671** – Hydroquinone 8% - Kojic Acid 3% - Tretinoin 0.05% - Hydrocortisone 1% - Fluocinolone Acetonide 0.001% Cream (Vanishing Cream)
- FA-13541** – Tamoxifen Citrate 0.1% - Tranilast 1% - Caffeine Citrate 0.1% - Alpha Lipoic Acid 0.5% Cream (Vanishing Cream)
- FA-11878** – Testosterone 5 mg/mL Cream (Vanishing Cream)

### High API loads

Validated for up to 8 APIs in a single formulation, ideal for complex compounds.

### Universal compatibility

Works with all actives regardless of salt form, so no reformulating needed across products.

### Time-saving

No wetting or thickening agents required, and it stays stable long-term without added emulsifiers
