

VERSATILE™

Vanishing Oil-in-Water Cream

Versatile™ is a highly elegant vanishing O/W cream base with a sophisticated, non-greasy formula. It retains its consistency across a broad range and high concentrations of APIs and solvents, making it an ideal compounding vehicle for both prescription work and basic skin care suited to balanced and dehydrated skin. Its excellent hydration effect helps support skin balance, delivering a pleasant, soft feel that vanishes quickly upon application.

HIGHLIGHTS

- **High API load, up to 30%** — retains consistency even with high concentrations of active pharmaceutical ingredients
- **Broad solvent compatibility** — alcohol, diethylene glycol monoethyl ether, propylene glycol, and propanediol
- **Formulated without common irritants** — free of fragrances, dyes, parabens, mineral oil, SLS, propylene glycol, and 1,4-dioxane
- **Multi-specialty applications** — suited for dermatology, hospice, HRT, pain, and veterinary use
- **Dermatologically and clinically tested** — demonstrated not to produce clinical signs of irritation or discomfort in participants and found to be non-comedogenic and non-acnegenic per the Acne Lesions Assessment.

SAMPLE FORMULAS

- FA-23262** – Benzocaine 20% - Lidocaine 6% - Tetracaine 4% Cream (Versatile™)
