

VERSATILE ANHYDROUS™

Transdermal Pain Management Cream

Versatile® Anhydrous Cream is a high-capacity, multipurpose base that dissolves both lipophilic and hydrophilic APIs into a single homogenous preparation. Its built-in solvent system and antioxidants deliver rapid absorption and protect oxidation-prone actives, while meeting USP (795) standards for up to 180-day beyond-use dating.

HIGHLIGHTS

- **High API load, up to 50%** — accommodates a broad range of active concentrations
- **Extensive compatibility** — works with 35+ actives including hormones, NSAIDs, antifungals, and topical anesthetics
- **Multi-specialty applications** — suited for dermatology, HRT, pain management, and veterinary compounding
- **Customizable skin-feel** — viscosity and tackiness can be fine-tuned with solvent selection to suit patient preference
- **Built-In Antioxidant Protection** — Protects oxidation-prone actives for a more stable preparation

SAMPLE FORMULAS

- FA-23827** – Hydroquinone 6% - Tretinoin 0.025% - Hydrocortisone 1% Cream (Versatile Anhydrous Cream)
- FA-23548** - Fluorouracil 2% - Salicylic Acid 17% Cream (Versatile Anhydrous Cream)
- FA-23565** - Amitriptyline HCl 5% - Gabapentin 5% - Lidocaine 5% Cream (Versatile Anhydrous Cream)
- FA-23583** - Azelaic Acid 15% - Tretinoin 0.05% Cream (Versatile Anhydrous Cream)

180-Day BUDs

Formulated with water activity below 0.6, meeting USP (795) standards for extended anhydrous beyond-use dating.

Dual-Solubility System

A unique built-in solvent system dissolves both lipophilic and hydrophilic APIs into one homogenous preparation.

Dermatologically and Clinically Tested

Demonstrated not to produce clinical signs of irritation or discomfort in participants
