IV. REGULAR AGENDA

- a. Finance Report as of April 30, 2025
 - i. Director of Finance & Administration Subra Narayanaier provided a brief synopsis of the organization's financial status, including a summary of recent/pending transactions:
 - \$3.5M updated revenue projection
 - \$922K received through 04/30/2025

- \$2.6M remaining to be received by 12/31/2025
 - Three significant project delays were highlighted:
 - The NRP Group LLC *Preakness Apartments project* - delayed to March 2026.
 - StoneHawk Capital Partners LLC *Gregg Lane Apartments project* - delayed to Q1 2026
 - Savoy Equity Partners *HWY-183 & East William Cannon Drive Apartments project* - delayed to Q3 2026.
 - ii. Director Roberts inquired about the cause of project delays. CEO/Executive Director Howard relayed that, primarily, market conditions, development process, etc., were the cause of project delays.
 - iii. Vice President Flores noted that if the estimated projected 8-month revenues and the Belmont Issuers' Fees were removed from the projections, the TCFC Set Aside Reserve balance would be cut by 50%.
 - iv. Director of Finance & Administration Narayanaier updated the Carson Creek unbudgeted additional funding from \$250,000 to \$400,000.
 - v. Director Laura Goettsche inquired whether Travis County's HUD-awarded HOME Investment Partnership Program Commitment budget was only for 2025 or a multi-year contribution. CEO/Executive Director Howard confirmed the Travis County HOME Partnership Program 25% match is for the year 2025.
- b. Belmont Project Status Update
- i. CEO/Executive Director Howard provided a synopsis of The NRP Group LLC Belmont Apartments approved through Resolution No. TCFC-2023-11 to reserve 10% of the units for tenants earning 30% AMI. The developer is requesting their original \$2M in gap funding while reducing the units for tenants earning 30% AMI to 5%. The Real Estate Committee met to discuss the options available should the Board choose to move forward with NRP's request. Alternatively, TCFC could forego the commitment.
 - ii. Attorney Summer Greathouse provided context and three scenarios concerning the aforementioned:
 - 100% of the units at 60% AMI with no loan provided
 - 5% of the units at 30% AMI with a \$2M loan with a normal issuer fee.
 - 5% of the units at 30% AMI with a \$2M loan with an accelerated issuer fee.
 - iii. Director Paver inquired about the developer's preference as well as the number of units at 5% AMI and asked the Board to consider foregoing funding for the Belmont Apartments project, given the reduced number of units by half and potentially increasing the instability of TCFC's financial position by at least 1/3 of revenue. Attorney Greathouse estimated 17 units pro rata per bedroom type.
 - iv. Vice President Flores and Director Goettsche agreed with Director Paver, highlighting the concern that the potential change of TCFC policy could set a precedent for future developers.
 - v. Director Wilmer Roberts asked for legal counsel's input on their recommendation.
 - vi. Attorney Summer Greathouse reiterated that the shift in both the state and federal market, interest rates, construction costs, tax credit equity pricing, etc., has created challenges.
 - vii. CEO/Executive Director Howard encouraged the Board to consider the fact that the market may not shift, and the importance of the proposed 17 units would be better than none.
 - viii. The consensus of the Board was to forego the \$2 million commitment based on the discussion.

SUMMARY:

Developer is seeking a collaboration through a 75-year lease with TCFC (the “PFC”) to develop the Project, an approximately \$102 million multifamily new construction project with a mix of 1, 2 and 3-bedroom build-to-rent cottages and 2 and 3-bedroom townhomes with attached garages, two pools and clubhouses, fitness center, dog park, pickleball court, walking trails and other amenities, whereby the PFC shall have ownership of the land and the Project.

BUILD-TO-RENT OVERVIEW

BUILD-TO-RENT OVERVIEW

Build-to-rent communities are designed to have the comforts of living in a single-family home while offering maintenance free living, avoiding the cost of homeownership, and maintaining a sense of community with shared amenity spaces. Perch BTR communities offer a better resident experience, particularly for those seeking a single-family home for which high home prices makes homeownership difficult to attain.

PERCH BUILD-TO-RENT OVERVIEW

Perch offers 1, 2, and 3-bedroom floorplans that are comparable in size to a traditional suburban garden apartment, but with no neighbors above or below you, offering the feel of a single-family home. Perch offers a private, fenced outdoor space for each unit as well as front-door access to outdoor areas and the community's outdoor amenities. The abundance of outdoor space is ideal for tenants with pets or children, creating a sense of community amongst neighbors.

Our goal has been to focus on 4 key areas to create a better rental option from a function and design perspective. Our 4 areas of focus and differentiation are:

INVITING COURTYARDS

FUNCTIONAL BACKYARDS

THOUGHTFUL FLOORPLANS

COMMUNITY AMENITIES

INVITING COURTYARDS

When designing the site plan, a primary focus was to create a more enjoyable experience for residents when they walk from their home to their car. Instead of having units face a street or parking lot where the primary visual is a vehicle, we created pods of 6-10 units, turning the front of the units to face a beautifully landscape interior courtyard. The view from your living room becomes green space, instead of a parking lot. This also allows residents to socialize and get to know their neighbors if they choose.

FUNCTIONAL BACKYARDS

Every unit at Perch Manor Downs will have a private, fenced backyard. A key differentiator of our backyards relative to other BTR projects is that every unit also has a covered patio. This allows residents to put a small table and chairs or couch seating outside while still having protection from the sun and rain. All units have grass backyards and landscaping is maintained by property management.

THOUGHTFUL FLOORPLANS

The floorplans at Perch Manor Downs will allow units to live more like a single-family home, than an apartment. Key features to accomplish this include all units having a space for a dining table and chairs instead of only offering seating at the kitchen island, primary bedrooms being large enough for a king bed, walk-in closets, mud rooms, ample storage, 10-foot ceilings, dual vanity sinks in 2 and 3-bedroom units and plenty of natural light.

ELEVATED INTERIOR DESIGN

We believe that elevated interior design is the sum of several small decisions that are greater than the individual parts, and that good design does not require spending more money. Perch has a sophisticated style with a neutral color palette and hints of soothing blue, natural clay and herbal green. Natural finishes serve to ground the overall aesthetic in an elegant but unpretentious way. The overall effect is calming and restorative to residents.
