INVENTORY✓VIEW™

User Guide and FAQ

INSIGHTS ON ARRIVALS, DEPARTURES, IN-TRANSIT AND ON-SITE INVENTORY

Introducing InventoryView, the visibility solution for shippers, partners, and carriers. Here's how it works:

Shippers

Get a comprehensive view of their network and system-wide inventory.

Partners

Access a view of their facility and their inventory.

Carriers

See only their inventory across the network.
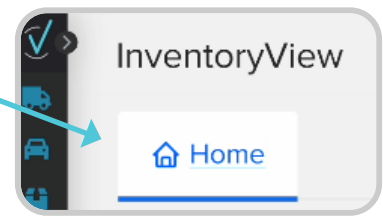

Let's Get Started

1 InventoryView Home page

InventoryView is comprised of two sections. You can click on **Home** in the upper left corner to see insights on your locations...

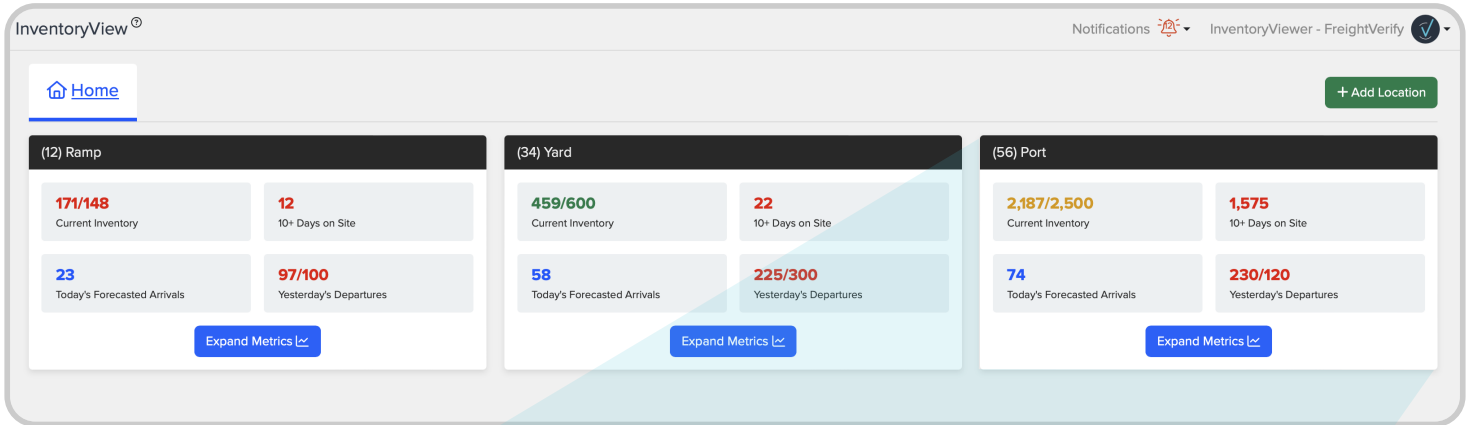

...or **Details** on the right to access the InventoryView Dashboard

Lets start on the Homepage. To view your Locations, click on **Home**.

InventoryView

⌂ **Home**

Here you can see three locations.

Yesterday's Departures

Expand Metrics ⌁

You can click the **Blue Button** below each location to access **Expanded Metrics**...

....which loads the expanded **InventoryView Dashboard** for this location.

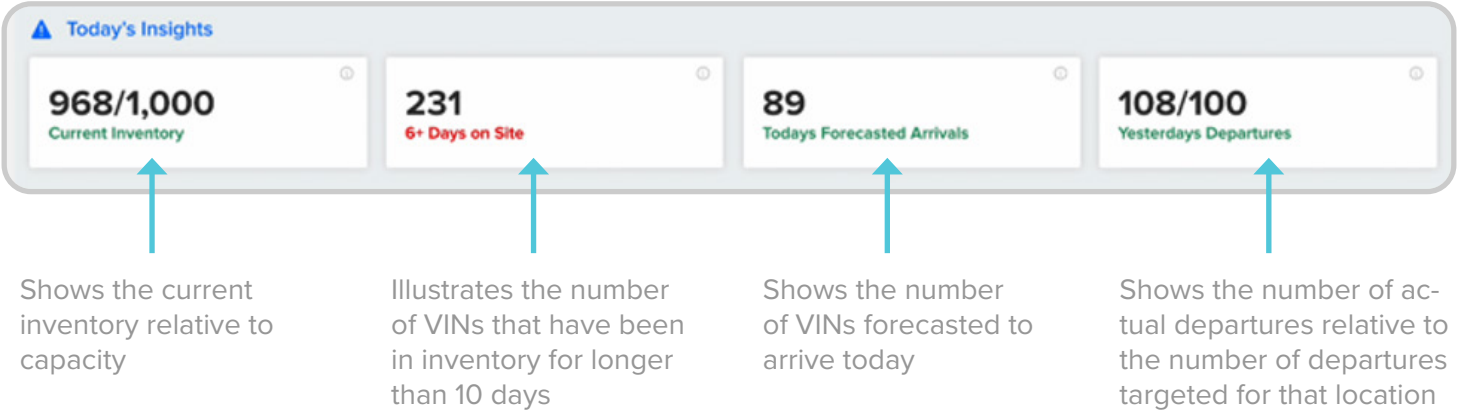

Insights give you a summary of Daily operational statistics

Circular graphs provide an at-a-glance view of key performance metrics
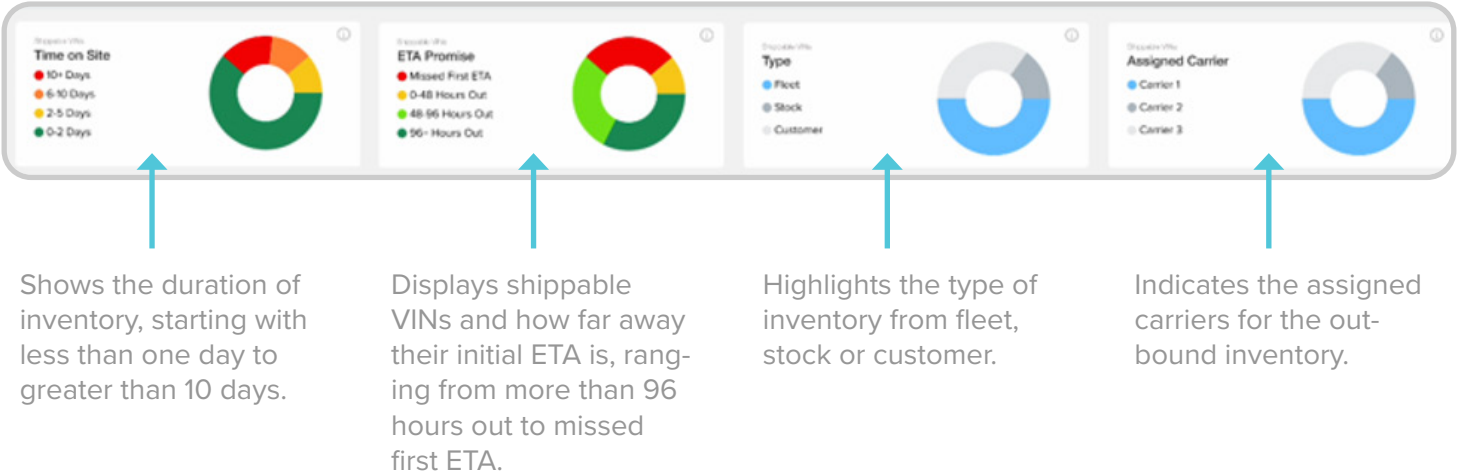

Bar charts deliver snapshots of current inventory and pipeline data

Daily **performance analytics** illustrate arrivals and departure, actual vs. projected/ forcasted

Daily Insights

968/1,000 — Current Inventory

231 — 6+ Days on Site

89 — Todays Forecasted Arrivals

108/100 — Yesterdays Departures

Shows the current inventory relative to capacity

Illustrates the number of VINs that have been in inventory for longer than 10 days

Shows the number of VINs forecasted to arrive today

Shows the number of actual departures relative to the number of departures targeted for that location

Key Performance Metrics

Shows the duration of inventory, starting with less than one day to greater than 10 days.

Displays shippable VINs and how far away their initial ETA is, ranging from more than 96 hours out to missed first ETA.

Highlights the type of inventory from fleet, stock or customer.

Indicates the assigned carriers for the outbound inventory.

Analytics (actual vs. projected/ forecasted)

Follow **Inventory** on a daily basis, relative to capacity and tracking shippable, non-shippable and forecasted VINs.

Track the **Pipeline** here by location type, including plant, upfitter, port, distribution, road, rail and water.

Assess the **Arrivals** on a daily basis, with actual and forecasted VINs both before and after Today's date.

Monitor **Departures**, comparing actuals vs. target, plotting stretch targets and projecting trends in the days ahead.

4 InventoryView Search

At any time, you can **Search** for VIN's using the **InventoryView search bar** in the upper right corner.

Type a VIN into the **Search Bar**, press the blue Search button and see your **Search Results**.

Here, we can search across 328 VINs.

Click on the **Advanced Search filters** to further refine your Search Results.

You can search on any of the following filters – or – combination of filters, to find the VINs that match your requirements

Q Search VIN | Search VIN ⌄ | **Search**

Product Type ⌄ | Shippability ⌄ | Forecasted Arrival ⌄ | Current Location ⌄ | Production Date ⌄ | Time on Site ⌄ | Destination ⌄ | Initial ETA ⌄ | Carrier ⌄ | Arrival Date ⌄ | Departure Date ⌄

USER TIP: Many InventoryView users will often set filters for Shippable Inventory on specific arrival days.

1 First, select Shippable Filter

Shippability **Shippable** ⊗

2 Then, select the Dates

Search VIN ⌄ | **Search**

Arrival Date **To: 07/08/2024** ⊗

3 Press Save

Search

24 ⊗

Your Shippable Inventory on specific arrival days will be saved to your **InventoryView Homepage**.

---

5 **Downloading Search Results**

You can also **Download** search result data to your computer at any time by clicking on the **Download Data (.csv)** and icon in the upper right corner, above Time on Site.

Search VIN ⌄ | **Search**

Carrier ⌄ | Arrival Date ⌄ | Departure Date ⌄

Download Data (.csv) ⬇
