Right in the heart of Eindhoven's creative hub Strijp S, Biergarten is where the city comes alive. A raw, unpolished backyard & home that feels like your own, made for those who love their nights loud, their beers local, and their moments unfiltered.

This 500m² open-air playground is combined with our cozy indoor space of 175m² on the ground floor and 150m² on the 1st floor.

All of them are designed for connection, our long benches invite conversation, our standing tables keep the energy flowing, and our open layout makes it easy to bump into someone new.

Expect big local pints, unique craft beers, and sharable comfort food served with a side of DJ sets and live music.

Hosting up to 300 people inside & way more outside, our crowd is a mix of creatives, internationals, and free spirits looking for a place that feels like home (just without the rules).

No dress codes, no pretenses. Just good people, vibrant energy, and a space that's stayed wild and free since day one.

For All of Us.

100% Dutch, fiercely local, and backed by centuries of brewing tradition. All our draft beers come straight from the renowned Gulpener, one of the only small breweries producing fully Dutch-brewed beer, using only local hops, malt, and pure Dutch water in every sip.

Alongside our craft beers, we offer a selection of special international beers, chosen for their unique experiences. These beers change seasonally, bringing new flavors to discover throughout the year.

Our wines are handpicked from France, Portugal, Italy, and Spain, with a special focus on natural selections. Prefer cocktails? They're made with a funky mix of flavors. And for a refreshing alternative, our homemade sodas and lemonades offer freshly squeezed fruits and aromatic herbs.

Bold, authentic, and just damn good drinks.
