

# DUNSTER FIRST SCHOOL NEWS

Dear Parents and carers,

Welcome to the Summer Term and what glorious weather we have had to start it, long may it continue!

The start to the Summer Term has been quite incredible for a number of our children. Last week, our oldest children, had the most amazing experience when visiting Pinkery. The weather was perfect and they took part in some wonderful activities, such as rock climbing, grass sledging, stream dipping, paddling, bog walking, tunnel exploring and much much more! The children were a credit to the school. They attempted every challenge that was placed in front of them with determination and courage. They were a real credit to the school and we were really proud of them. A special thanks to Miss Hunter and Miss Bennett who came along to the residential.

Our Year 3 children this week went on their own residential to the city of Bristol. The weather was glorious as the children explored the city. The children travelled by train to Bristol, where upon arriving then took part on a boat ride around the harbour. They then had the chance to visit the SS Great Britain. When the evening arrived, it was off to the Bristol Hippodrome to watch 'Chitty Chitty Bang Bang'. The following morning was spent at the science museum 'We The Curious', followed by an afternoon at a local school where we were made to feel really welcome. Once again, the children were a credit to our school as they explored the city and made new friends with children from other schools in our Federation. A big thank you to Mrs Lancaster for her work with this visit.

Both visits are totally different to each other, one remote and incredibly rural, the other taking place in the middle of a culturally diverse city. I am really proud to be able to offer opportunities like these to our children and thank you to all of those who have supported these visits.

Next week is a shorter week in school, due to the Bank Holiday, Thursday sees our Super Hero day, where children are invited to dress up as a super hero. This does not have to be super hero in the traditional sense, but could be someone who the children see as a super hero, maybe an inventor, a nurse or doctor, a lifeguard or even a family member. Friday sees our whole school art day, with a drumming and dance work shop-a big thank you to Miss Collins for her work organising this.

Thank you-Thank you to Ian who fitted the defib box and wired the electrics for us, free of charge.

Let's hope the sunshine continues and I hope you have a lovely time with your family.

Paul James
