

Our School Newsletter

30th January 2026

Haddon

Despite the wet weather we have continued to enjoy spending time outdoors as well as working hard in class. We are enjoying learning about the seasons in science and about London in geography and have drawn some fabulous pictures of London landmarks.

Landacre

In Science, we are investigating the question 'Will it degrade?' We have been learning about the different types of pollutants found in the ocean and how they affect marine life. To explore this, we have created our own oceans in jars, added different types of litter, and will observe them over the next few weeks to see how long each material takes to degrade.

Burridge

Burridge have had another busy and fruitful couple of weeks. In maths this week, we have been working on our new topic of fractions. We have been looking at multiplying fractions by whole numbers by unitizing. In science, we've been exploring electrical circuits, with the children thinking of questions they want to find out about how electrical components might affect a circuit before testing their ideas using the equipment. We also finished our class read which had a very emotional, but positive ending.

The Link

The children in The Link have been learning how to use chopsticks in readiness for the Chinese New Year. They managed to eat a roast dinner with them!

Little Owls

A big puzzle completed before lunch time 🧩 ✅

The school starters enjoyed their outdoor learning this morning. They read and acted out "We're going on a bear hunt" 🐻 🌳

Dinosaur stomping 🦖 🦖

Message from Mrs Stenner

Dear Parents and Carers,
I have been very impressed with a group of boys from Burrige Class who have formed a team of volunteer litter pickers from the younger year groups! They have taken responsibility for keeping the school playground tidy, and we are hoping to take them into town so they can extend their good work into the wider community. They are really living out our school value this half term – well done!

Mrs Stenner
